PROGRAMME OVERVIEW

The Master's in Accounting and Finance is a one-year full-time programme that offers a unique curriculum with the aim of preparing you for careers in financial management, consulting and professional services.

The programme focuses on the fields of Corporate Finance, Accounting and Management Control, which are central to the functioning and success of corporations and other organisations. They lie at the intersection of business strategy, processes and information which are critical to ensure that decisions and behaviours are consistent with corporate and strategic objectives.

Our research-based faculty proposes courses carefully designed to strike a balance between strong theoretical foundations and a high degree of real-world applicability. As such, in addition to being exposed to a rigorous treatment of both classical and contemporary theories, students will gain practical knowledge through an extensive use of challenging team-based assignments and cases that focus attention on relevant current issues faced by organizations. The programme will deepen your analytical competence, critical thinking and problem-solving skills, as well as enhance your ability to work in diverse groups. Given the challenging and demanding nature of our programme, students are expected to engage in a significant amount of independent study and preparation to succeed.

ONE PROGRAMME – TWO SPECIALISATIONS

When applying to this programme, you select either the specialisation in Corporate Finance or in Accounting and Management Control.

The specialisation in Corporate Finance is designed for students with an interest in corporate financial decision making, corporate valuation, financing, restructuring and corporate risk.
