

LUND  
UNIVERSITY

# MSc in Architecture

LUND UNIVERSITY, SWEDEN

- Master of Science in Architecture
- 2 years, full time, 120 ECTS credits
- School of Architecture, Faculty of Engineering
- Lund Campus
- Application deadline: 16 January 2017
- Programme start: August 2017

## Programme overview

The world of today is growing more globally interlinked and connected, thus offering new challenges for architecture. These challenges concern everything from the densification of cities and sustainability, to threats related to extreme events and the environment. Lund University, located in the dynamic Copenhagen-Malmö region, is well known for its competence and knowledge, and offers superb resources for studying these matters in a broader context. The programme combines best practice with advanced research, thus educating students to become highly skilled professionals who are competitive at an international level.

Teaching contains both theoretical and hands-on projects aiming to find future-focused solutions to real-world issues. The programme features international collaboration, as well as locally active professionals. The process of working/learning consists of a mixture of workshops, crits, tutorials with invited guests (both international and local) and longer projects that will be exhibited to a public audience.

**The objectives of the Master's programme in Architecture are:**

- to offer a broad education in architecture with possible specialisation within three main fields (Advanced Architectural Design, Spatial Experiment, and Human Shelter/Urban Space)
- to provide students with the skills to manifest an internationally recognised capacity to act within a challenging but uncertain future related to globalisation and extreme situations.

## Programme modules/courses

The programme consists of three specialisations: Advanced Architectural Design, Spatial Experiment, and Human Shelter/Urban Space.

## Career prospects

After graduating from the programme you will have the necessary skills to practise as an architect on a global market. You will be up-to-date regarding theory, practice and tools at an advanced level. Your competence will enable you to engage in professional practices on both private and pub-

lic level. The future-focused nature of the programme will make you especially attractive on the market, by being an architect capable of finding innovative ways of approaching the projects of tomorrow.

## Entry requirements and how to apply

### ENTRY REQUIREMENTS

A Bachelor's degree in architecture. A digital portfolio of your own work in the field that clearly proves that you have a good potential to benefit from the programme. English 6/English Course B. See [www.lunduniversity.lu.se](http://www.lunduniversity.lu.se) for details on English proficiency levels.

### HOW TO APPLY

**1. Apply online:** Go to [www.lunduniversity.lu.se/architecture](http://www.lunduniversity.lu.se/architecture). Click on "Apply" and follow the instructions for the online application at [www.universityadmissions.se](http://www.universityadmissions.se), the Swedish national application website. Rank the chosen programmes in order of preference.

**2. Submit your supporting documents:**

- **General supporting documents:** Check what documents you need to submit (i.e. official transcripts, degree diploma/proof of expected graduation, translations, proof of English, passport) and *how* you need to submit them at [www.universityadmissions.se](http://www.universityadmissions.se).
- **Programme-specific supporting documents:** When applying for this programme, you also need to submit a portfolio, a statement of purpose and a CV. These

## What others say

**"Scandinavia and Sweden have a very good reputation in general. Concerning architecture, Sweden is famous for its strong tradition in architecture and urban construction since the 20th century. Therefore Sweden is a reputable option for students who want to study architecture."**

Christer Malmström, Programme Director & Maria Rasmussen, Lecturer and researcher at the programme

programme-specific documents should be submitted directly to the programme (not to University Admissions in Sweden). More information can be found on the programme webpage.

4. **Pay the application fee** (when applicable).

#### **SELECTION CRITERIA/ADDITIONAL INFO**

The selection is based on the submitted portfolio and the statement of purpose.

#### **TUITION FEES**

There are no tuition fees for EU/EEA citizens. For non-EU/EEA citizens the tuition fee for this programme is SEK 210 000 per year. For details on tuition, see [www.lunduniversity.lu.se](http://www.lunduniversity.lu.se).

### **About the Faculty of Engineering**

The Faculty of Engineering at Lund University (LTH) is among the leading engineering faculties in Europe with over 9,000 undergraduate students and 800 postgraduates. LTH is one of the few comprehensive engineering faculties in Sweden, and in addition to traditional engineering programmes we also offer programmes in architecture and industrial design. With a 50-year long history of research and education excellence, we are well equipped to meet the increasing global demand for more sustainable, connected and user-driven technologies, and to provide our students with the knowledge and skills they need in order to succeed within their chosen field.

### **About Lund University**

Lund University was founded in 1666 and is repeatedly ranked among the world's top 100 universities. The University has 41,000 students and 7,500 staff based in Lund, Helsingborg and Malmö. We are united in our efforts to understand, explain and improve our world and the human condition.

Lund is Sweden's most attractive study destination. The University offers one of the broadest ranges of programmes and courses in Scandinavia, based on cross-disciplinary and cutting-edge research. The compact university campus encourages networking and creates the conditions for scientific breakthroughs and innovations. The University has a clear international profile, with partner universities in over 70 countries.

Funding of more than SEK 5 billion a year goes to research at eight faculties, which gives us one of Sweden's strongest and broadest ranges of research activity. Over 30 of our research fields are world-leading, according to independent evaluations.

Two of the world's leading materials research facilities are currently under construction in Lund: the MAX IV Laboratory, inaugurated in June 2016, is the leading synchrotron radiation facility in the world, and the European research facility ESS, which will house the world's most powerful neutron source. The two facilities will be of decisive importance for future scientific and industrial development in both materials science and life science.
