Programme overview
The Bachelor’s programme in Development Studies is interdisciplinary and focuses on economic, social and political processes and their links to development cooperation. The aim is to provide the knowledge needed in order to critically examine and understand the preconditions for, and process of, development.

The programme draws on, and combines, the scientific traditions from four different disciplines within the social sciences – sociology, political science, human geography and economic history. This offers students a multi-disciplinary perspective on development studies and provides the opportunity to deepen their knowledge in any of the aforementioned subjects.

Programme modules/courses
The programme is structured so that students get an introduction to the subject during year one (consisting of four 15 credits courses), acquire a specialisation through depth (30 credits in one of the four major disciplines) and width (30 credits optional courses) in year two, which can also be spent abroad, and further specialisation and preparation for the working life (including an opportunity to do an internship or a minor field study) in year three.

The courses within the programme are: Development in a Historical Perspective – Economic, Social and Political Transformation (15 credits), Development Policy in Practice (15 credits), Development Theories (15 credits), Theory of Science and Research Methods – An Introduction (15 credits), selected courses in Lund or elsewhere (in total 60 credits), Development Cooperation in Practice (15 credits), Research Methods in Development Contexts (15 credits), Field Work, Internship and Research Overview (15 credits), Bachelor’s thesis (15 credits).

Career prospects
The programme provides students with both the background knowledge and the practical skills needed to work in development-related fields. Students also gain a critical social science approach that provides preparation for graduate and doctoral studies and proves valuable in various professions within government agencies, private firms and NGOs.

Entry requirements and how to apply

ENTRY REQUIREMENTS
To be eligible for the programme the student must fulfil the general entry requirements and courses corresponding to the following Swedish Upper Secondary School courses: Civics A. English 6/English Course B. See www.lunduniversity.lu.se for details on English proficiency levels.

“If you thrive on intellectual discussions with your peers and have an open mind to opposing views that will push you to think outside the box – this is the programme for you.”
Adriana Pereira, Portugal
HOW TO APPLY
1. Apply online: Go to www.lunduniversity.lu.se/ba-development-studies. Click on “Apply” and follow the instructions for the online application at the Swedish national application website www.universityadmissions.se. Rank the chosen programmes in order of preference.
2. Submit your supporting documents: Check what documents you need to submit (i.e. official transcripts, degree diploma/proof of expected graduation, translations, proof of English, passport) and how you need to submit them at www.universityadmissions.se.
3. Pay the application fee (when applicable).

SELECTION CRITERIA/ADDITIONAL INFO
The general average (GPA) of your higher secondary school leaving certificate.

TUITION FEES
There are no tuition fees for EU/EEA citizens. For non-EU/EEA citizens the tuition fee for this programme is SEK 100 000 per year. For details on tuition fees and scholarships, see www.lunduniversity.lu.se.

About the Department of Human Geography
The Department of Human Geography is a dynamic entity of the University of Lund with a strong international reputation for both research and education in human geography. The Department is active in economic geography, historical and landscape geography, environmental geography, urban/social/political geography, and development geography.

About Lund University
Lund University was founded in 1666 and is repeatedly ranked among the world’s top 100 universities. The University has 41,000 students and 7,500 staff based in Lund, Helsingborg and Malmö. We are united in our efforts to understand, explain and improve our world and the human condition.

Lund is Sweden’s most attractive study destination. The University offers one of the broadest ranges of programmes and courses in Scandinavia, based on cross-disciplinary and cutting-edge research. The compact university campus encourages networking and creates the conditions for scientific breakthroughs and innovations. The University has a clear international profile, with partner universities in over 70 countries.

Funding of more than SEK 5 billion a year goes to research at eight faculties, which gives us one of Sweden’s strongest and broadest ranges of research activity. Over 30 of our research fields are world-leading, according to independent evaluations.

Two of the world’s leading materials research facilities are currently under construction in Lund: the MAX IV Laboratory, inaugurated in June 2016, is the leading synchrotron radiation facility in the world, and the European research facility ESS, which will house the world’s most powerful neutron source. The two facilities will be of decisive importance for future scientific and industrial development in both materials science and life science.
