Programme overview
Starting in the autumn of 2017, Lund University School of Economics and Management will offer a three year (180 ECTS credits) BSc in International Business. The programme is taught in English and aimed at recent high school graduates with a strong academic background, international career ambitions, and the drive to gain knowledge and skills in the international business field.

The BSc in International Business offers:
- A vast, yet focused curriculum in business, economics, statistics, business law and information systems. International perspectives from faculty members and students.
- Semester-based projects enhancing cross-cultural learning.
- Opportunities of internships in companies and/or exchange studies at one of our partner universities abroad.
- Study and career advice.
- The overall purpose of the programme is to prepare you for a career in international business. You will train in advanced problem solving in an international context, and learn theoretical concepts, models, and tools derived from relevant research. This will throughout the programme be related to real and complex business problems.

Programme structure
The programme has an international focus, is combining courses in business administration with courses in economics, economic history, statistics, informatics and business law. The programme starts by introducing you to basic concepts and theories within central areas of the programme, including general skills such as for example working in teams, academic writing, and oral presentations.

The courses that follow after the first semester add additional perspectives and models that provide further, in depth insights into the practical and theoretical areas that are related to the broad field of international business.

As a final part of the programme, you will conduct your own research project and demonstrate your ability to independently apply the different ideas and theories introduced by the different courses. During the final semester, you will, in a small team write your degree project and also carry out a “Learning Objective Assessment” in order to repeat vital knowledge and skills of the programme and reflect upon your learning and personal development.

Career prospects
A continued internationalisation of business life demands a solid understanding of cross border, cross-cultural international business, trade, law, and economics. This programme will enable you to compete in the international business labour market as well as add value to domestic firms/employers with international relationships.

After graduation you will be well equipped for junior management positions at large international companies, government institutions or other organisations. Functional areas can include export, import, finance, controlling, business development, sales, marketing and customer care for example.

Entry requirements and how to apply
ENTRY REQUIREMENTS
General entry requirements to the programme:
- have successfully completed upper secondary (high school) education
- proficiency in English equivalent of English studies at upper secondary (high school) level in Sweden, called English 6/English Course B.

Specific entry requirements to the programme:
- social science (civics) 1 b (at least one completed course in social science)
- mathematics 3b/3c which denotes knowledge of how to solve mathematical problems involving polynomial, rational, exponential and logarithmic functions, and knowledge of the derivative of those functions and the relation of the derivative to the slope of a curve.
English language requirements:
This programme requires "English 6/English course B". This is the equivalent of an overall IELTS score of 6.5 or a TOEFL score of 90. There are several ways to prove your English language proficiency - check which proof is accepted at www.universityadmissions.se. All students must prove they meet English language requirements by the deadline, in order to be considered for admission. For more information about this programme’s entry requirements and selection criteria, please visit the programme webpage.

HOW TO APPLY
1. Apply online: Go to www.lunduniversity.lu.se/bsc-international-business. Click on “Apply” and follow the instructions for the online application at the Swedish national application website, www.universityadmissions.se. Rank the chosen programmes in order of preference.
2. Submit your supporting documents:
   • General supporting documents: Check what documents you need to submit (i.e. official transcripts, degree diploma/proof of expected graduation, translations, proof of English, passport) and how you need to submit them at www.universityadmissions.se.
   • Programme-specific supporting documents: No additional documents, such as statement of purpose, CV or letters of recommendation, are required when applying for this programme.
3. Pay the application fee (when applicable).

SELECTION CRITERIA
Seats are allocated according to the general average (GPA) of your higher secondary school leaving certificate. Contact University Admissions in Sweden if you have any questions about the selection process. You can find contact details at www.universityadmission.se.

TUITION FEES
There are no tuition fees for EU/EEA citizens. For non-EU/EEA citizens the tuition fee for this programme is SEK 100 000 per year. For details on tuition fees, see www.lunduniversity.lu.se.

About the School of Economics and Management
The activities within Lund University School of Economics and Management cover research and education in business administration, business law, economic history, economics, informatics, and statistics, as well as research policy. About 4 100 students and 400 researchers, teachers and other staff members study and work at the School.

The School of Economics and Management provides a well-profiled, research-based education that is international and multidisciplinary in nature and helps equip our students to hold key positions in industry and society in an increasingly globalised world. Our students can choose from a wide range of specialist subjects and attend lectures by some of our best researchers, international guest professors, and business leaders from a broad spectrum of sectors and organisations.

About Lund University
Lund University was founded in 1666 and is repeatedly ranked among the world’s top 100 universities. The University has 41 000 students and more than 7 500 staff based in Lund, Helsingborg and Malmö. We are united in our efforts to understand, explain and improve our world and the human condition.

Lund is Sweden’s most attractive study destination. The University offers one of the broadest ranges of programmes and courses in Scandinavia, based on cross-disciplinary and cutting-edge research. The compact university campus encourages networking and creates the conditions for scientific breakthroughs and innovations. The University has a clear international profile, with partner universities in over 70 countries.
