Programme overview
The oldest programme covering European economic law in Scandinavia provides in-depth understanding both of practical and theoretical aspects of European economic law, and the operation of the rules of the European market in a global context. The programme provides a solid foundation in the EU constitutional framework, which underpins the regulation of the European market. Students are able to tailor the programme to suit their interests and future career through specialisation, in particular during the second year of the programme.

Programme modules/courses

Career prospects
With a unique combination of traditional legal studies in EU business law (i.e. contract law, tax law and competition law) and economic- and trade-related issues, this programme is an ideal preparation for a career within private practice, national/EU institutions, or legal research. It also provides an excellent basis for students interested in pursuing an academic career.

3. Pay the application fee (when applicable).

“The European Business Law programme is a fantastic programme! What I liked the most is that it combines both theory and practice in a stimulating manner. The first part of the two-year programme gives you a solid theoretical foundation of EU law, whilst the second part gives you the choice to specialise in diverse business law subjects. Moreover, the lectures and the seminars are given both by academics and professionals, which I found great.”
Max Hjärtström, from Sweden
SELECTION CRITERIA/ADDITIONAL INFO
Selection is based on previous university/college studies and other merits such as letters of recommendation and statement of purpose.

TUITION FEES
There are no tuition fees for EU/EEA citizens. For non-EU/EEA citizens the tuition fee for this programme is SEK 130 000 per year. For details on tuition fees, see www.lunduniversity.lu.se

About the Faculty of Law
Lund University was founded in 1666 by King Karl XI, and the Faculty of Law is one of the four original faculties. Research at the Faculty encompasses all central areas of law and demonstrates a considerable breadth.

Education is provided for both undergraduates and postgraduates. All education within the Faculty is based on research. The majority of the Faculty’s activities focus on educating lawyers, leading to the Swedish degree of Master of Laws, LL. M. The Faculty has student exchange agreements with major universities worldwide and offers a range of courses and Master’s Programmes in English.

The Faculty’s premises are located in the historical centre of Lund. The Faculty of Law Library is one of the largest law libraries in Scandinavia with both Swedish and foreign literature, a large collection of journals as well as a European Documentation Centre (EDC).

About Lund University
Lund University was founded in 1666 and is repeatedly ranked among the world’s top 100 universities. The University has 42 000 students and 7 400 staff based in Lund, Helsingborg and Malmö. We are united in our efforts to understand, explain and improve our world and the human condition.

Lund is the most popular study location in Sweden. The University offers one of the broadest ranges of programmes and courses in Scandinavia, based on cross-disciplinary and cutting-edge research. The compact university campus encourages networking and creates the conditions for scientific breakthroughs and innovations. The University has a distinct international profile, with partner universities in over 70 countries.

Lund University has an annual turnover of SEK 8 billion, of which two-thirds go to research. Our research is characterised by both breadth and strength and, according to independent evaluations, over 30 of our research fields are world-leading.

The establishment of the world-leading facilities MAX IV and ESS will have a major impact on future scientific and industrial development in both materials science and life science. MAX IV, which was inaugurated in June 2016, is the leading synchrotron radiation facility in the world, while the European research facility ESS will be the world’s most powerful neutron source when it opens for research in 2023. Adjacent to these facilities, Science Village Scandinavia is also being developed into a meeting place and testing environment for research, education and entrepreneurship.
