EIGHT FACULTIES
And more than 30 world-leading research fields
Eight faculties in three locations

- Faculty of Engineering – LTH
- Faculty of Science
- Faculty of Law
- Faculty of Social Sciences
- Faculty of Medicine
- Joint Faculties of Humanities and Theology
- School of Economics and Management
- Faculty of Fine & Performing Arts

- Campus Helsingborg
- School of Aviation
7,400 employees, more than 42,000 students.
One of Scandinavia’s widest range of courses.
280 programmes
– over 100 taught in English.
80 educational programmes with a first-level degree.
More than 2,000 free-standing courses of which more than 1,000 are taught in English.
Distribution of students by education cycle

- Undergraduate, programmes: 50%
- Undergraduate, freestanding courses: 20%
- Master’s, programmes: 25%
- Master’s, freestanding courses: 5%
Lund University has educated Nobel laureates, prime ministers, a president and several notable leaders.
Strong research areas

• Materials science, surface physics and nanotechnology
• Advanced laser physics and spectroscopy
• Diabetes
• Cancer
• Automatic control and complex systems
• IT and mobile communications
• Neuroscience and neurodegenerative diseases
Strong research areas, cont.

• Cognitive science
• Stem cell therapy
• Evolution, ecology, and animal migration patterns
• Environment, climate, sustainable systems and biodiversity
• Epidemiology
• Innovation and entrepreneurship
• Middle Eastern studies
Specialised centres
– a few examples

• International Institute for Industrial Environmental Economics (IIIEE)
• LUCSUS – Lund University Centre for Sustainability Studies
• CIRCLE – Centre for Innovation, Research and Competence in the Learning Economy
• Centre for East and South-East Asian Studies
• Centre for Middle Eastern Studies
• The Pufendorf Institute for Advanced Studies
• Food for Health Science Centre
One of Scandinavia’s broadest research environments.
Research figures

• Research students  2,900
• PhD  450
• Professors  800
• Other academic staff  4,000
• Publications  5,300
Cultural and Public Centres

- *Skissernas Museum*: unique in the world, focused on the creative process and art in public spaces
- *The Botanical Garden*: 7 000 plants and a green-house with nine climate zones
- *The Historical Museum*: Southern Sweden’s largest archaeological museum
- *Odeum*: Centre for music practice, concerts and lectures
One of the top 100 in the world

* THE = Times Higher Education
** Shanghai ranking = Academic Ranking of World Universities (ARWU)
A world-class university that works to understand, explain and improve our world and the human condition.
Strategic plan 2017–2026

Vision
A world-class university that works to understand, explain and improve our world and the human condition

Priority areas
• Education and research are to be intertwined
• Stimulating active collaboration to solve societal challenges
• Continued development as an international university
• Well-developed leadership and collegiality
• Students, employees and visitors are to be offered attractive environments
• The potential of MAX IV and ESS is to be fully exploited
600 partner universities in over 70 countries.
Lund attracts more international students than any other Swedish university.
Member of the strong international network LERU (the League of European Research Universities), and Universitas 21
Living life while learning for life

Considered the number one city for students in Sweden, Lund offers an exciting campus environment with a vibrant student life, an international atmosphere and memorable student traditions.
A modern campus with numerous meeting places.
Lund University Library.
Plenty of extra-curricular activities

Lund offers a wide range of possibilities outside the study programmes. Many social and cultural activities exist. Careers support is offered as well as opportunities to develop entrepreneurial ideas.
“Studentafton” – student night: an independent forum for speech and debate since 1905.
A multitude of different choirs.
Grow your future business network.
Many long-standing student traditions and shared activities form the heart of student life in Lund.
Spex. A humorous student tradition.
Celebrating 350 years

- 19 December 2016 until 28 January 2018, the dates marking the University’s foundation and its subsequent inauguration. The programme includes:
  - thematic research weeks with world-famous participants
  - concerts
  - exhibitions
  - publication of jubilee books and performances of a specially written jubilee revue
One of Northern Europe’s most knowledge-intensive areas
Additional campuses in the cities of Malmö and Helsingborg.
Home to 4 million inhabitants and Scandinavia’s largest recruitment base of highly-skilled employees.
With world class research facilities.
14,000 researchers, 190,000 students, 19 research parks and incubators and 17 higher education institutions.
MAX IV – the most brilliant X-rays for research.
MAX IV

- World-leading synchrotron radiation laboratory
- Using synchrotron radiation to study materials at the atomic scale
- For scientific breakthroughs within medicine, engineering and science
- Inaugurated June 2016
Mikael Eriksson, the brain behind the MAX IV.
ESS – European Spallation Source

• World-leading facility for neutron science
• The atomic and molecular structure and function of materials such as plastics, proteins and medicines
• Opens for research in 2023
• Will be used by at least seventeen European countries
ESS. European Spallation Source.
Medicon Village

• A world-class infrastructure for Life Science
• Collaborative community for research, innovation and entrepreneurship
• 80 000 sqm research park
• 30 000 sqm laboratories
And one of Europe's most successful meeting places for visionaries, entrepreneurs and venture capital – Ideon Science Park.
Tetra Pak started in Lund 1943.
Some innovations from Lund

• The Tetra Pak tetrahedron
• The artificial kidney (Gambro)
• Diagnostic ultrasound
• Bricanyl – asthma medicine
• Nicorette – nicotine gum to quit smoking
• Axis – printer and camera servers
• Proviva – probiotic fruit drink
• Orbital Systems – the world’s most water-efficient shower
• Endodrill – instrument for cancer diagnostics
LUND
The city of great ideas
Where thousands of years of history meet the latest in modern science

- Population of 120,000 inhabitants
- Students and researchers from over 130 countries
- A truly international and vibrant atmosphere
- Academia, business, culture and nature thrive within cycling distance
- A picturesque city centre including the cathedral and the winding cobble-stoned streets
Everything within biking distance.
