The student will also have developed their ability for independent study. In addition, on completion of the programme, the student will have acquired crucial entrepreneurial skills that increase their professional versatility in an ever-changing cultural life.

Entry requirements and how to apply
ENTRY REQUIREMENTS
Bachelor’s degree in music or equivalent, and approved entrance examinations.

HOW TO APPLY
The applications to Malmö Academy of Music programmes take place in three steps:
1. Apply online and submit your supporting documents to University Admissions in Sweden:
   • Apply online: Go www.universityadmissions.se, the Swedish national application website. Find your programmes of interest, click on “Apply” and follow the instructions for the online application. Rank the chosen programmes in order of preference.
   • Submit supporting documents: Check what documents you need to submit (i.e. official transcripts, degree diploma/proof of expected graduation, translations, proof of English, passport) and how you need to submit them at www.universityadmissions.se.
   • Pay the application fee (when applicable).
2. Send work samples to Malmö Academy of Music: You will need to send samples of work via regular post directly to Malmö Academy of Music. Deadlines and instructions for your specialisation can be found at www.mah.lu.se.
3. Participate in audition/entrance examination: After the application deadline, selected candidates will be invited to an entrance examination. These usually take place in March each year. The auditions/entrance examinations are held at the Academy located in Malmö, Sweden and participation is mandatory.

Check www.mhm.lu.se for further information about the application process and the notifications of results that are sent out in April.

“I took an exam at Bachelor’s level in Piano at the Academy of Music in Poznan. After that I decided to try an Erasmus exchange and go to the Malmö Academy of Music, because I’ve heard a lot of good things about the school and about the professors. It has turned out that it’s very cool here and the professor I have in piano is very good.”

Monika Wozniak, from Poland, specialisation in Piano

About Malmö Academy of Music

The Malmö Academy of Music has developed an international study environment. Since 1990, our efforts at organised internationalisation have firmly established the Academy’s reputation with foreign contacts stretching far beyond Scandinavia and Europe. We have over 60 institutional agreements in Europe (Erasmus, Nordplus), as well as access to Lund University’s comprehensive contracts with universities that span the globe. Both students and teachers may apply to exchange programmes that will give them new experiences and broaden their educational perspective.

Every year, the Malmö Academy of Music accepts a large number of guest lecturers and exchange students and we direct several projects in an effort to spread knowledge about the music and values of foreign cultures. In practical terms, our international efforts provide the individual student and teacher with new perspectives on their daily activities. Internationalisation leads to new experiences and constitutes an ongoing evaluation as well as quality management. The Malmö Academy of Music actively works to educate the musicians and music teachers of the future in a way that reflects the needs of a multicultural society.

About Lund University

Lund University was founded in 1666 and is repeatedly ranked among the world’s top 100 universities. The University has 42 000 students and 7 400 staff based in Lund, Helsingborg and Malmö. We are united in our efforts to understand, explain and improve our world and the human condition.

Lund is the most popular study location in Sweden. The University offers one of the broadest ranges of programmes and courses in Scandinavia, based on cross-disciplinary and cutting-edge research. The compact university campus encourages networking and creates the conditions for scientific breakthroughs and innovations. The University has a distinct international profile, with partner universities in over 70 countries.

Lund University has an annual turnover of SEK 8 billion, of which two-thirds go to research. Our research is characterised by both breadth and strength and, according to independent evaluations, over 30 of our research fields are world-leading.

The establishment of the world-leading facilities MAX IV and ESS will have a major impact on future scientific and industrial development in both materials science and life science. MAX IV, which was inaugurated in June 2016, is the leading synchrotron radiation facility in the world, while the European research facility ESS will be the world’s most powerful neutron source when it opens for research in 2023. Adjacent to these facilities, Science Village Scandinavia is also being developed into a meeting place and testing environment for research, education and entrepreneurship.
