Programme overview
The Master’s in Church Music programme has three specialisations:
- Arrangement and Composition
- Organ and Keyboard

The programme aims to further educate musicians that possess high artistic, educational and professional abilities. On completion of the programme, the student will possess advanced knowledge and skills in order to work within the various functions and engagements of a professional musician – either as a soloist, a member of an established ensemble, or as a church musician within the Church of Sweden or within other denominations. The student must also have developed the skills necessary for continued and in-depth studies that are to a great degree autonomous. Furthermore, on completion of the programme, the student must have acquired thorough entrepreneurial skills that increase their professional versatility in an ever-changing ecclesiastical and cultural life.
