Programme overview

The Master’s Programme in Service Management is a unique programme for those seeking to study industry relevant service management and leadership at an advanced level. The programme combines in-depth subject knowledge of the service sectors, a cutting edge research environment, and up-to-date professional applications. When applying to the Master’s Programme in Service Management you choose one of three different specialisations: Supply Chain Management, Retail or Tourism. We have a mix of students from all around the world.

Features of the programme:

The rapid development in Supply Chain Management, including global challenges and new ways of organising supply chains and conducting business, require more qualified staff. You study and analyse phenomena and situations such as service management in Supply Chain Management contexts, transports and logistics management, change management, theory of science as well as qualitative and quantitative methods. This will help you develop the important analytical and managerial skills while giving you valuable experience to develop innovative, strategic and sustainable global supply chains. You will gain knowledge and experience from different supply chain management fields, and develop tools to create innovative and sustainable supply chain management in companies, public sector organisations, and others.

Programme modules/courses

COURSES AND NUMBER OF CREDITS: Service Management: Theory - Development and Traditions (15), Managing Service Organisations (15), Methods in Social Sciences (15), Logistics and Supply Chains (7.5), Service Logistics (7.5), Sustainability in Service Organisations (15), Transport Systems: Inter-Modality and Traceability (15), Master’s Thesis (30).

Career prospects

Graduates from this programme will work as project leaders, senior managers as well as consultants and analysts in different organisations, including hospitals and municipal organisations. You are also qualified to perform research projects across a wide spectrum of logistic and supply chain companies and organisations.

Entry requirements and how to apply

ENTRY REQUIREMENTS

The student must have a Bachelor’s degree amounting to 180 ECTS credits or the equivalent, of which at least 60 ECTS credits must be within the area of social sciences, service management, business administration, or the equivalent. English 6/English Course B. See www.lunduniversity.lu.se for details on English proficiency levels.

“Studying in Sweden is an amazing experience, Lund University is prestigious and very much culturally diverse, the social environment is very open and at the same time very professional. Our field trips within Sweden and other European countries are amazing. These trips are eye openers for students like us in order to look at the service sector from an international perspective.”

Kasi Khan from Pakistan
HOW TO APPLY
1. Apply online: Go to www.lunduniversity.lu.se/service-management-supply-chain. Click on “Apply” and follow the instructions for the online application at the Swedish national application website www.universityadmissions.se. Rank the chosen programmes in order of preference.

There are no tuition fees for EU/EEA citizens. For non-EU/EEA citizens the tuition fee for this programme is SEK 100 000 per year. For details on tuition fees, see www.lunduniversity.lu.se

About the Department of Service Management and Service Studies
The Department Of Service Management and Service Studies is geographically situated in the city of Helsingborg in Sweden, a beautiful seaside city in the middle of the dynamic Malmö-Copenhagen region.

We are a successful and interdisciplinary department known for high quality education, research and collaboration. We generate new knowledge of what is today one of the pillars of the western world: service provision.

Our students are trained to manage and run companies within the retail, tourism and supply chain management sectors. Our research takes a broader, interdisciplinary perspective. On the one hand, we have a micro perspective in research at the agent level, i.e. how individual agents manage particular problems. On the other hand, we have a structural perspective, in which research takes a broader view of everything from infrastructure to environmental impact.

About Lund University
Lund University was founded in 1666 and is repeatedly ranked among the world’s top 100 universities. The University has 42 000 students and more than 7 680 staff based in Lund, Helsingborg and Malmö. We are united in our efforts to understand, explain and improve our world and the human condition.

Lund is Sweden’s most attractive study destination. The University offers one of the broadest ranges of programmes and courses in Scandinavia, based on cross-disciplinary and cutting-edge research. The compact university campus encourages networking and creates the conditions for scientific breakthroughs and innovations. The University has a clear international profile, with partner universities in over 70 countries.
