Study Opportunities
at Lund University | Sweden

EDUCATION, RESEARCH AND INNOVATION SINCE 1666
Welcome to Lund University

Lund University, founded in 1666, is one of northern Europe’s oldest, broadest and finest universities. Ranked among the world’s top 100 universities, the University has 42,000 students and 7,680 staff based in Lund, Helsingborg and Malmö. We are united in our efforts to understand, explain and improve our world and the human condition.

AN INTERNATIONAL UNIVERSITY

Lund University is consistently the most popular choice for international students coming to study in Sweden, attracting students from over 130 countries. This creates a global classroom environment where students encounter different cultural perspectives and start their international network. With a thriving student life and compact campus where everything is within cycling distance, the atmosphere in Lund is both international and intimate.

The University has a clear international profile, with partner universities in over 70 countries. We are also members of the research-intensive university networks, Universitas 21 (U21) and the League of European Research Universities – LERU.

As a study destination, Lund University offers one of Scandinavia’s broadest ranges of programmes and courses taught in English, including exchange, study abroad, Bachelor’s, Master’s, PhD and professional studies.

LUND UNIVERSITY 350TH JUBILEE

Lund University is one of the oldest learning institutions in Scandinavia. Officially established in 1666, Lund University will celebrate its 350th anniversary from December 2016 to January 2018. Steeped in centuries of tradition, the University has had the privilege of educating many Nobel laureates, prime ministers, a president and several notable leaders in society.
CUTTING-EDGE RESEARCH
Ultrasound, Bluetooth and dialysis are all examples of revolutionary discoveries that have their roots in research at Lund University. Funding of EUR 530 million a year goes to research at eight faculties, which gives us one of Sweden’s strongest and broadest ranges of research activity. Over 30 of our research fields are world-leading.

WORLD-LEADING RESEARCH FACILITIES
Two of the world’s leading materials research facilities are being built in Lund: the MAX IV Laboratory (opening in 2016) will be one of the most important synchrotron radiation facilities in the world. The European research facility ESS will house the world’s most powerful neutron source (2019). The two facilities will be of decisive importance for future scientific and industrial development in both materials science and life science.

TOP REASONS TO STUDY AT LUND UNIVERSITY
• Sweden’s top-ranked university, ranked 60th in the world (QS World University Rankings 2014/15)
• The number one choice for international students studying in Sweden
• Lund is considered the best student city in Sweden with the unique combination of traditional student nations (social clubs), an academic society and student unions organising events and activities year round
• An international environment where 90% of Swedes speak English
• Sweden is one of the safest countries in the world and ranked as one of the best in which to live
EXPERIENCE
FOUR DISTINCT SEASONS

Summers are warm and pleasant, 20 to 25°C (68 to 77°F) with up to 17 hours of daylight.

Winters are cold but Lund has a much milder winter climate compared to the rest of Sweden, -5 to 3°C (23 to 37°F) and down to 7 hours of daylight.

Spring is fresh and vibrant, 3 to 16°C (37 to 61°F).

Autumn is crisp and beautiful, 6 to 16°C (43 to 61°F).
Sweden

Home of the Nobel Prize, the world’s most prestigious academic distinction, Sweden is a safe, modern and eco-conscious country with a great global reputation, stunning nature and one of the world’s highest living standards.

Sweden is the fifth largest country in Europe (450,000 square kilometres), but has a population of only 9.3 million.

Sweden is ranked as the second-best country in the world at providing higher education (Universitas 21, 2014) and English is spoken by 90% of the population, allowing students to have a unique European experience without the language barrier.

As one of the world’s most creative countries, Sweden has a proud tradition of innovation and entrepreneurship. Innovative research at universities and companies has resulted in many successful inventions, including the computer mouse, Bluetooth technology, the pacemaker, the ball bearing, the Tetra Pak beverage packaging system, the dialysis machine and internet applications such as the online music streaming service Spotify and the free internet calling service Skype.

There are more large internationally leading companies per capita in Sweden than in any other country. Sweden also registers among the highest rates of patents per capita in the world (World Economic Forum 2013). The Malmö region, including Lund, has also been named as the 4th most inventive in the world (Forbes: World’s Most Inventive Cities 2013).

The Swedes have developed a form of society that fosters equality, cooperation and democracy in every aspect of life. Sweden has been praised internationally for its approach and ability to maintain a relatively healthy economy during times of global economic crisis. The Swedish welfare model also has a positive reputation as a responsible system that looks out for the long-term interest of all of its citizens.

Studying in Sweden not only means experiencing a new way of learning and thinking, but also the chance to enjoy Swedish culture and traditions, beautiful nature and a different way of life.
Campus Locations

LUND

Lund University’s main campus is located in Lund – a small, safe city steeped in history, yet with the healthiest and youngest population in the country (population 110,000). There are 130 nationalities in Lund, making it a truly international city in which to study.

As one of the oldest cities in Sweden, dating back to 990, Lund is a city of contrasts where 1,000 years of history blend with modern knowledge and ideas. The combination of business, students and researchers from around the world has given birth to Lund’s unique character as a city of strong research-based global industries.

The city itself is compact and charming, with picturesque old houses, cobbled streets and beautiful green surroundings. Student cafés, nightlife, a vibrant and intellectually stimulating atmosphere, rich culture and a wide assortment of leisure activities all help to make your stay a memorable experience.

The University lies in the heart of the city. In Lund everything is nearby – within reach on foot or by bicycle. There are frequent trains to nearby Malmö, Helsingborg, Copenhagen and Copenhagen Airport (the closest international airport, 40 minutes away).

HELSINGBORG

Helsingborg is a scenic coastal city located 30 minutes by train from Lund. Around 4,000 students study at Campus Helsingborg in subjects including service management, strategic public relations, media studies, energy-efficient building design, social work and some undergraduate engineering courses. Most students studying at Campus Helsingborg also live in the city, which has popular beaches and a lively atmosphere.

MALMÖ

Malmö is the third largest city in Sweden and is only 10 minutes by train from Lund. Many Lund University students live in Malmö and commute to Lund, while students living in Lund often visit Malmö to enjoy the advantages of a big city. The city is home to Lund University’s Faculty of Fine and Performing Arts. Public Health and other medical studies are also taught in Malmö.
LUND – THE CITY OF BIKES

The easiest way to get around Lund is by bike. The city is small and compact which means your class is typically no more than 5-15 minutes from your accommodation. Cycle paths make biking safe and convenient. It’s easy to find a second-hand bike once you arrive in Lund and join in the cycling culture.

RESIDENCE PERMIT

Citizens of countries outside of the EU/EEA require a residence permit from the Swedish Migration Board to study in Sweden. You must prove that you have funds to support yourself while living in Sweden (SEK 8 010 per month of study).

LIVING COSTS

A typical student budget to cover housing, food, clothing, books and leisure time is SEK 8 010 per month of study (US$970/ €860). A suggested budget for one academic year (10 months) is SEK 80 100 (US $9700/ €8 600).

INSURANCE

All international students are covered by a comprehensive insurance policy provided by the Swedish government, which includes accident cover, costs for transport home in case of illness or accident, liability cover and legal expenses while studying in Sweden.

SWEDISH PERSONAL NUMBER

Students studying for more than 12 months can apply for a Swedish personal identity number from the tax agency, on arrival in Sweden. This number simplifies many practical transactions and gives access to the same health benefits as Swedes.

HOUSING

Student corridor rooms are single bedrooms furnished with a bed and desk, either with a private en suite toilet, shower and wash basin or shared bathroom facilities. Corridor rooms have a shared kitchen and living area and a shared laundry room.

Studio flats are self-contained rooms with a combined bedroom, living area, small kitchenette and bathroom with a shower, toilet and wash basin. No areas are shared except the laundry room. One-bedroom apartments, shared apartments or lodging with a family are other student housing options.

LU Accommodation is a service at Lund University which manages some of the student housing available in Lund, Helsingborg and Malmö. The Academic Society, student nations and local private landlords provide additional student housing options.
Lund University has a network of more than 30 libraries in Lund, Malmö and Helsingborg with an electronic library collection including more than 15,000 e-journals, 500 databases and many e-books.
Academic Life & Student Services

ACADEMIC YEAR
The academic year is divided into two semesters, each lasting 20 weeks. A course load of 30 credits per semester equals full-time studies.

Autumn semester: Late August to mid-January
Spring semester: Mid-January to early June

At Lund University students experience an open, informal study environment, with teachers and students usually on a first-name basis.

Teaching is often done in small groups, which encourages dialogue and collaboration, and teachers are accessible outside lecture hours. Students are also tasked with group work, which presents new challenges and opportunities for students and simulates the real dynamics of an international work environment.

Courses (modules) are usually taught one at a time (engineering two courses at a time) rather than multiple parallel courses. This allows students to go more in-depth into the course content.

Critical thinking and freedom of mind are the cornerstones of academic life at Lund University. Critical thinking refers to the ability to assess information and form independent and well-informed opinions; to give and receive criticism in a constructive manner; and to engage in discussion with fellow students and learn from others. Freedom of mind refers to the ability to think outside the box – to liberate oneself from conventional wisdoms, to value the authenticity of ideas and experiences, and to appreciate and seek fresh perspectives on old ideas.

These approaches are stimulated in all activities at the University. In seminars, workshops and experiments, students analyse and present solutions to given problems and assignments. Theoretical concepts are tested in practical situations, and practical experiences are employed to develop and enrich theory.

A large part of the learning process takes place outside the classroom through independent study and discussion of the course material in groups.

STUDENT SERVICES
• International offices at the faculties and the University’s central International Desk help international students with academic and practical matters.
• LU Accommodation helps international students with housing.
• The Academic Support Centre offers consultations around academic writing, presentation skills and study skills.
• The Swedish Language Lounge is a weekly social evening where students can practise Swedish. Weekly social activity nights and other events are also offered.
• Student Health Services help students with problems that affect their ability to study.
• Disability Support Services offer learning support services and contact with specialist teachers and mentors.
• The Careers Service helps to prepare students for their transition into working life by giving CV guidance, seminars on the Swedish labour market and information on what recruiters are looking for.
• Student portal and email account services.
Student Life at Lund University

Considered the best student city in Sweden, Lund University is known for its variety of student organisations, including the “nations” of Lund, the Academic Society and student unions. Together these student organisations have created many long-standing student traditions. Their combined activities, available through the “Studentlund” membership, form the heart and soul of student life in Lund today.

THE NATIONS
The 13 nations are large, welcoming student societies that are unique in Sweden. Getting involved in a student nation is one of the best ways to meet friends and enjoy student life at Lund. The nations organise a lot of social activities including running bars, clubs (e.g. photography, baking, music), social sports as well as parties, concerts, cheap dinner nights and social events.

THE ACADEMIC SOCIETY
The Academic Society (“Akademiska Föreningen” or “AF”) organises events including “Studentafton” (evening interviews with high profile guests), student radio, student TV, student theatre, “Spex” comedy musicals, lectures, art and cultural events and AF Bostäder accommodation.

STUDENT UNIONS
The student unions handle politics and student rights and organise events such as formal balls, careers fairs and more.

SPORTS
There are plenty of opportunities to participate in all kinds of social or competitive sports through the student nations or by joining local sports clubs. Lund University is also a great base from which to experience the beautiful nature and outdoors of Sweden.

CULTURE
Lund, Malmö and Helsingborg offer a variety of museums, galleries, public events and performances. Lund University even has its own museum of art – Skissernas Museum – the Museum of the Artistic Process and Public Art, founded in 1934.

UNIQUE STUDENT TRADITIONS
- The doctoral conferment ceremony – a tradition since 1670.
- “Lundakarnevalen”, the student-carnival – a tradition since 1849.
- “Spex” student theatre – one of the most eccentric traditions, since 1886.
- “Studentafton” is a tradition from 1905 organised by the Academic Society, where invited guests are interviewed in an intimate, informal setting.
- The Lund University Male Voice Choir’s annual May Day appearance is a tradition from 1831.
- “Sista April” or “Valborgsmässoafton” is celebrated on 30 April with students gathering in the city park to socialise.
ARRIVAL DAY
International students are greeted at Copenhagen airport before taking the 40-minute train ride over to Lund. Students are driven from the railway station to the main student building to register their arrival, buy tickets for events, take care of practical matters, collect housing keys and be driven to their accommodation (if provided through LU Accommodation).

ORIENTATION & INTRODUCTION
A two-week programme of practical information sessions and fun social activities is offered to all international students to welcome and introduce them to the University and create opportunities to make new friends before classes start. Events include visits to attractions in the region, a welcome party, a formal dinner, “Taste of Sweden”, shopping at IKEA, a treasure hunt, a sports day and more.

INTERNATIONAL MENTORS
Groups of 15-20 students are assigned international mentors who help welcome new students, show them around their new city, organise informal social activities and help with practical questions throughout the semester.
STRONG RESEARCH AREAS

MEDICINE AND HEALTH:
• Neuroscience & diseases in the nervous system
• Diabetes
• Cardiovascular diseases
• Cancer
• Stem cell biology
• Epidemiology
• Healthy ageing
• Infectious diseases
• Bioimaging and mass spectrometry

ECONOMICS, SOCIAL SCIENCES, HUMANITIES:
• Cognitive science
• Economic history
• Economic demography
• Innovation and entrepreneurship
• Middle Eastern studies
• Climate and environment
• Linguistics
• Music education

SCIENCE AND ENGINEERING:
• Materials science and nanotechnology
• Synchrotron radiation research
• Laser spectroscopy
• Automatic control
• E-science
• Manufacturing engineering
• IT and mobile communications
• Transport and logistics
• Risk and safety management
• Food
• Quaternary geology
• Biodiversity
• Animal migration patterns
EXAMPLES OF INNOVATIONS

1944 The Tetra Pak tetrahedron
1946 The artificial kidney
1953 Diagnostic ultrasound
1966 Bricanyl – asthma medicine
1967 Nicorette – help smokers quit
1971 The ServoVentilator – the modern ventilator
1990 Oatly – oat drink
1991 Proviva – probiotic oatmeal drink
1991 CLS – laser cancer treatment
1993 QlikTech software
1995 Bluetooth
1997 Precise Biometrics – fingerprint reader
1999 Decuma – handwriting recognition
2001 LUCAS – mechanical cardiac massage
2004 Polar Rose – advanced image analysis and face recognition
2005 Hövding – invisible bicycle helmet
2007 Medviso – software for cardiac analysis
2007 A1M Pharma – treatment for pre-eclampsia
2008 Immunovia – MRI cancer diagnosis
2009 Sol Voltaics – nano solar cells
2010 Nocturnal Vision – night vision technology
2011 cTrap – covering to combat damp
2012 Endodrill – instrument for improved cancer diagnosis
2013 Appethyl – spinach shot that suppresses hunger signals
Lund University is one of the most popular student exchange destinations in Europe and receives more than 2100 exchange students per year from across the globe.

Lund University has exchange agreements with 600 universities in over 70 countries worldwide, including more than 400 within the EU’s Erasmus+ programme. Students can come to Lund University for exchange at both Bachelor’s and Master’s levels. Exchange students do not pay tuition fees at Lund University.

WHAT ARE EXCHANGE STUDIES?
The term exchange student implies that your home university has a formal agreement to exchange students with Lund University. The agreement can be specific to a faculty, a department or a university-wide agreement.

You must be nominated by your home university and then apply for exchange studies for either one semester or two semesters of study.

ENGLISH LANGUAGE REQUIREMENTS
It is recommended that your level of English language proficiency is equivalent to IELTS 6.5 or TOEFL 90.

DEADLINES FOR NOMINATED STUDENTS
Students nominated for exchange to Lund University select courses during the following application periods:

1 April–25 April for autumn semester studies
1 October–25 October for spring semester studies

www.lunduniversity.lu.se/exchange

WIDE SELECTION OF COURSES
Lund University offers more than 700 courses, across a wide range of subjects, that are taught in English and suitable for exchange students.

Admission to courses depends on the following:

- The type of agreement between your home university and Lund University (e.g. a university-wide agreement, a specific faculty agreement or department-level exchange agreement).
- Whether you meet the specific admission requirements of the courses
- Places available on the courses
Subject Areas for Exchange Studies

Over 700 courses, suitable for exchange students, are offered across the following subject areas:

**ECONOMICS AND MANAGEMENT**
- **business administration**: strategy, organisation, finance, marketing, entrepreneurship
- **economics**: econometrics, international economics, macro- and microeconomics, public economics including labour and health economics
- **economic history**: economic and financial development, economic demography
- informatics/information systems
- statistics

**SOCIAL SCIENCES**
- media and communication studies
- gender studies
- political science and peace and conflict studies
- psychology
- service management and service studies: retail, tourism, logistics
- sociology
- strategic communication
- human geography, human ecology, development studies and geographic information systems
- social work
- sociology of law

**LAW**
- Swedish law
- EU law
- environmental law
- international human rights law
- company law
- legal history
- maritime and transport law
- criminal law
- moot court
- private international law
- US law

**SCIENCE**
- **biology**: animal biology, aquatic biology, conservation biology, general biology, plant biology
- bioinformatics
- molecular biology: medical biology, microbiology, molecular genetics and biotechnology
- chemistry: analytical chemistry, biochemistry, chemical physics, inorganic chemistry, molecular biophysics, organic chemistry, physical chemistry, theoretical chemistry
- geology: bedrock geology, quaternary geology, paleontology, sedimentology
- mathematics: pure mathematics, applied mathematics, mathematical statistics, numerical analysis
- physical geography, ecosystem analysis and geographic information systems
- physics: astronomy, atomic physics, combustion physics, computational biology and biological physics, mathematical physics, nuclear physics, particle physics, solid state physics, synchrotron radiation based science, theoretical high energy physics
Subject Areas for Exchange Studies (CONTINUED)

ARCHITECTURE AND DESIGN
• industrial design
• architecture: advanced architectural design, human shelter – urban space, spatial experiments

ENGINEERING
• civil engineering: infrastructure engineering, structural analysis and design
• environmental engineering: energy systems, process design, water resources engineering
• biotechnology: pharma, food, molecular biotechnology, biopress technology
• chemical engineering: materials, process design
• biomedical engineering: biomedical physics, biomechanics and rehabilitation, signals images and e-health
• information and communication engineering: communication systems, security, systems signals and control
• computer science and engineering: images and computer graphics, design of processors and digital systems, embedded systems, communication systems, software, software engineering
• electrical engineering: energy and environment, photonics and high-frequency electronics, integrated systems, biomedical engineering, production logistics and business, control and automation, signals and sensors
• engineering physics, mathematics and nanoscience: accelerators – physics and technology, computational mechanics, biological, ecological and medical modelling, computation and simulation, energy systems, photonics, financial modelling, high-frequency and nanoelectronics, nanophysics, control systems, theoretical physics, materials, nanobiomedicine
• industrial management and engineering: business and innovation, financial engineering and risk management, supply chain management, production engineering, software intensive systems
• mechanical engineering: computational mechanics, energy technology, automotive engineering, logistics and production management, mechatronics, product realisation, product development.
• surveying: geographic information science

FINE ART
Malmö Art Academy offers courses in:
• artistic techniques
• art theory
• artistic interpretation

MUSIC
Malmö Music Academy offers courses in:
• performance music
• church music
• composition
• music education
Subject Areas for Exchange Studies (CONTINUED)

MEDICINE AND HEALTH SCIENCES
Theoretical courses are available in:
- biomedicine
- public health

Clinical placements* and thesis research opportunities are offered within:
- medicine
- nursing and midwifery
- speech language pathology
- audiology
- occupational therapy
- physiotherapy
- radiography

*Note that clinical placements with English speaking supervisors are available on a limited capacity to medical students.

HUMANITIES AND THEOLOGY
- languages and linguistics
- literature
- European studies
- Middle Eastern studies
- film
- archaeology and ancient history
- arts and cultural sciences
- history
- media and communication
- rhetoric
- philosophy
- cognitive science
- theology and religious studies

SCANDINAVIAN/ SPECIAL AREA STUDIES
A large range of courses are offered in subjects such as Swedish and Scandinavian culture and society, European studies, regional courses and global issues of contemporary interest.

Courses cover topics such as environment and sustainability, Swedish social policy, education and social anthropology in Sweden, the Viking age, Scandinavian models of equity, diversity of the world languages, sustainable eating, critical animal studies, social innovation and more.

SWEDISH LANGUAGE
An introductory Swedish course is offered to all exchange students during the orientation weeks, before the start of the academic semester. Exchange students can also apply to regular Swedish language courses as part of their study plan. Courses are offered from level 1-5.

SWEDISH-TAUGHT COURSES (EDUCATION IN SWEDISH)
Students with a background in Scandinavian studies or who have studied in a Nordic school system may be able to apply for courses with Swedish as the language of instruction.
Choosing international Bachelor’s or Master’s studies at Lund University gives you more than just a high-quality education. International programmes provide excellent opportunities to form a global network of professional colleagues, as well as establishing contacts locally in Sweden. We offer international students an extensive range of education with 100 Master’s degree programmes, five Bachelor’s programmes and 500 stand-alone courses all taught in English. With subjects ranging from International Human Rights Law, Entrepreneurship and Middle Eastern Studies to Sustainable Urban Design, Biotechnology and Archaeology, our eight faculties and specialised research centres offer you a wide range of choices.

Many leading politicians, entrepreneurs, lawyers and cultural figures received their education at Lund University. Our alumni have a great success rate, finding employment in prominent organisations such as the UN, World Health Organisation and many leading companies.

SCHOLARSHIP OPPORTUNITIES

Academically talented international students have the opportunity to be awarded a prestigious merit-based scholarship:

- Lund University Global Scholarships (tuition fee)
- Lund University Regional Excellence Awards (tuition fee)
- Lund University programme-specific scholarships (tuition or living costs)
- Swedish Institute Study Scholarships (full tuition and living costs)
- Selected international government-provided scholarship programmes
- EU-funded scholarships

Bachelor’s & Master’s Degree Programmes

We offer international students an extensive range of education with 100 Master's degree programmes, five Bachelor’s programmes and 500 stand-alone courses all taught in English. With subjects ranging from International Human Rights Law, Entrepreneurship and Middle Eastern Studies to Sustainable Urban Design, Biotechnology and Archaeology, our eight faculties and specialised research centres offer you a wide range of choices.

Many degree programmes taught at Lund University employ a multi- or interdisciplinary approach in an environment of exceptional academic talent and cultural diversity. All education is closely tied to current research and many of the courses are truly unique.

International guest lecturers and speakers from business, government, NGOs and research regularly feature as part of the curriculum to further connect studies to the professional world.

Many leading politicians, entrepreneurs, lawyers and cultural figures received their education at Lund University. Our alumni have a great success rate, finding employment in prominent organisations such as the UN, World Health Organisation and many leading companies.

SCHOLARSHIP OPPORTUNITIES

Academically talented international students have the opportunity to be awarded a prestigious merit-based scholarship:

- Lund University Global Scholarships (tuition fee)
- Lund University Regional Excellence Awards (tuition fee)
- Lund University programme-specific scholarships (tuition or living costs)
- Swedish Institute Study Scholarships (full tuition and living costs)
- Selected international government-provided scholarship programmes
- EU-funded scholarships

KEY APPLICATION STEPS FOR BACHELOR’S AND MASTER’S DEGREE PROGRAMMES

**Now:** Find your degree programme at: www.lunduniversity.lu.se. Check your eligibility.

**Before 15 January:** Start application: Register, select and rank your programmes at www.universityadmissions.se

**Before 1 February:** Complete application: All supporting documents (including proof of English) due at University Admissions in Sweden. Pay application fee (SEK 900), or prove EU/EEA citizenship.

**Late March:** Admission results announced.

**Early April:** Deadline to accept admission offer (check www.universityadmissions.se for exact date).

**Before 15 June:** Pay first tuition fee instalment, then apply for residence permit from the Swedish Migration Agency (if non-EU/EEA citizen).

**Mid-August:** Arrival Day and start of introduction weeks.

**Late August:** Start of academic year.
Master’s Degree Programmes in English

APPLICATION PERIOD
Apply between mid-October and 15 January for degree programmes starting in the autumn (late August).

ENGLISH REQUIREMENTS
A minimum score of IELTS 6.5/ TOEFL 90 (or equivalent). Check exemptions at www.universityadmissions.se

ARCHITECTURE & DESIGN
- Architecture
- Industrial Design
- Sustainable Urban Design

ECONOMICS & MANAGEMENT
- Accounting and Finance
- Economic Development and Growth
- Economic Growth, Population & Development
- Economics
- Entrepreneurship, Corporate Entrepreneurship & Innovation
- Entrepreneurship, New Venture Creation
- European and International Tax Law
- Finance
- Information Systems

ENGINEERING & TECHNOLOGY
- Biotechnology
- Disaster Risk Management and Climate Change Adaptation
- Embedded Electronics Engineering
- Energy-Efficient and Environmental Building Design
- Food Innovation and Product Design

• Service Management, Logistics
• Service Management, Retail

• Service Management, Tourism
• Strategic Communication

SOCIOLOGY, PSYCHOLOGY & MEDIA
• Media and Communication
• Psychology
• Social Studies of Gender
• Sociology of Law

BACHELOR’S DEGREE PROGRAMMES
• Development Studies
• Fine Arts
• Mathematics
• Physics
• Physical Geography & Ecosystem Analysis
Pre-Master’s Preparation Programme

Lund University is introducing a Pre-Master’s Preparation Programme delivered by ONCAMPUS Lund, a part of Cambridge Education Group. The programme is designed for academically talented students, who are close to reaching the level of English language proficiency required for admission, and who meet all other entry requirements to our selected Master’s degree programmes. www.lunduniversity.lu.se/pre-masters

Study Abroad

TAILOR MADE STUDY ABROAD PACKAGES
We design specialised study abroad packages for other universities, national scholarship programmes or other organisations which enable their students to study specific subject areas or Scandinavian special interest topics. Study Abroad packages can range from short courses during a semester, a summer programme or up to a year of full-time studies. E-mail: studyabroad@er.lu.se

STUDY ABROAD SWEDISH LANGUAGE PROGRAMMES
Individual students can also apply directly to our Study Abroad Swedish Language programmes, which are designed for non-EU students who have a Swedish family connection, a special interest in Scandinavia or who wish to go on to study courses and programmes taught in Swedish at higher education institutes in Sweden. The programmes cover levels 1-4 or 5-8 within one semester or a 1-year programme covering levels 1-8. To be eligible you must have completed upper-secondary school studies and meet English language proficiency “English 6” (IELTS 6.5 or TOEFL 90). www.lunduniversity.lu.se/study-abroad

PhD Studies

Lund University offers PhD studies at all eight faculties. There are no tuition fees for PhD studies at Lund University. Doctoral studentships are used as the primary form of funding for doctoral education, but use of external funding and scholarships is also permitted – i.e. scholarships established by an organisation other than Lund University.

A doctoral studentship means that the University employs the doctoral candidate as a staff member and pays a salary whilst the candidate undertakes their doctoral studies. In parallel to the doctoral education programme, the doctoral candidate may work with administrative and teaching duties (no more than 20% of a full-time position).

PhD studies are organised at department level. You apply directly to the department when PhD positions are advertised. You contact the department directly regarding PhD studies with external scholarships or funding. www.lunduniversity.lu.se/phd

Professional Education

Lund University offers a range of professional education, available to international companies, organisations and authorities aiming to develop their business and the expertise of their staff. For international public and private sector organisations, Lund’s professional education gives access to the latest research and the best lecturers in their particular field, for up-to-date professional development of the highest quality. To apply for or to discuss professional education opportunities and international training programmes from Lund University contact info@education.lu.se. www.lunduniversity.lu.se/commissioned-education
Massive Open Online Courses

Lund University offers a selection of courses that are open to anyone with an interest in the subject, regardless of previous academic experience. The courses are taught online, in English, and are free of charge. Participants receive a certificate on completion of these courses, however no university credits are awarded. www.lunduniversity.lu.se/moocs

Erasmus+

Lund University participates in the Erasmus+ programme, including mobility and scholarship opportunities for students, researchers and staff. www.lunduniversity.lu.se/erasmus+

Lund University Alumni Network

The Alumni Network is a professional and social network for all who have studied at Lund University. Almost 30,000 alumni located across the globe have joined this network, which is a great resource for career development, professional networking and keeping in touch with classmates. Future and current students can utilise the network to gain insight into studies and student life at Lund University, seek graduate and career advice and to connect with alumni during studies, after graduation and throughout their working life. Visit www.lunduniversity.lu.se/alumni
