Lund University welcomes students from around the world

Lund University is one of the world’s top 100 universities and the most popular choice for international students coming to Sweden. We offer a global environment where students encounter different cultural perspectives and gain international contacts — valued by employers worldwide.

LUND UNIVERSITY IS...

- Sweden’s top-ranked comprehensive university and ranked 97th in the world
- The number 1 choice for international students studying in Sweden
- A non-profit, public university founded in 1666 — one of the oldest and broadest universities in northern Europe
- Home to 30 world-leading research and innovation environments

CENTURIES OF INNOVATION AND CREATIVITY

Lund University is one of the oldest learning institutions in Scandinavia. Officially established in 1666, Lund University can arguably trace its roots to 1436 when it was recognised as a studium generale, an institution of international excellence. Steeped in centuries of tradition, Lund University has always been at the forefront of innovation with its modern and dynamic approach. We are considered one of Scandinavia’s most outstanding universities. One of our strengths is our unique disciplinary range and our ability to generate boundary-crossing collaboration. Student influence, internationalisation and close cooperation with wider society are other characteristics of Lund University. We have had the privilege of educating many Nobel laureates, prime ministers, a president and several notable leaders in society.

AN INTERNATIONAL UNIVERSITY

With a range of over 100 degree programmes, exchange studies and hundreds of stand-alone courses taught in English, Lund University attracts students from all around the world. With over 145 nationalities on campus, we can offer a truly global environment where different ideas and perspectives meet. Lund University collaborates with over 640 partner universities worldwide and is the only Swedish university to be a member of the prestigious international research networks League of European Universities (LERU) and Universitas 21 (U21). Over 1 500 international exchange students join Lund University every year from our partners. In addition, students in our Bachelor’s and Master’s programmes have excellent opportunities to do an internship or study abroad at one of the partner universities.

Over 8000 international students from over 145 countries

Lund University is one of the world's top 100 universities and the most popular choice for international students coming to Sweden. We offer a global environment where students encounter different cultural perspectives and gain international contacts — valued by employers worldwide.
World-leading research and innovation

Our nine faculties conduct research in many different areas, including over thirty research fields in which we are world leading. Many scientific breakthroughs and pioneering innovations have originated from Lund University, including the medical ultrasound, dialysis and Bluetooth.

Research at Lund University is known for its strong inter-disciplinary focus and its cooperation with industry and business. Our interdisciplinary research and the diversity we offer as a comprehensive university have contributed to our success in recent years in obtaining major research grants. Annually, around EUR 470 million are destined for research and education in Lund and the Clinical Research Centre, enabling us to offer one of the strongest and most outstanding research environments in the world, according to independent assessments.

INNOVATION AND BUSINESS COLLABORATION

Ericsson, Sony Mobile, Tetra Pak, Gambio and Alfa Laval are among the large, well-known companies located in Lund with which the University cooperates. The business sector in Lund also boasts an impressive breadth of knowledge-intensive companies at the forefront of their fields. Ideon Science Park hosts some 350 companies which collaborate with Lund University and have helped to make Lund known worldwide for cutting-edge research and technology. Medicon Village offers a unique environment for life sciences, integrating research, innovation and enterprise.

MAX IV Laboratory
The world’s foremost synchrotron radiation source which puts Sweden in a class of its own in materials and nano research.

MINISTERS

The European Spallation Source (ESS) A unique facility for materials research which will be responsible for future research breakthroughs in medicine, environmental science, climate, communication and transport (opening 2023).

EXAMPLES OF STRONG RESEARCH ENVIRONMENTS
- Ageing and supportive environments
- Biodiversity and ecosystem services
- Cancer research
- Climate modelling
- Diabetes research
- Epidemiology
- E-science
- Humanities Lab
- Information technology and mobile communications
- The International Institute for Industrial Environmental Economics
- Laser physics and spectroscopy
- MAX IV
- The Middle East in a contemporary world
- Nanotechnology
- Neuroscience
- Stem cell therapy
- Sustainability science
- Sustainable production

- International Institute for Industrial Environmental Economics (IISEE)
- Pulkendorf Institute for Advanced Studies
Lund campus

Lund University’s main campus is located in the city of Lund – a small, safe city steeped in history with the healthiest and youngest population in Sweden. Our students and researchers represent 145 nationalities, making Lund a truly international city.

Lund is located in southern Sweden and has a population of around 120,000. Copenhagen, the largest city in Scandinavia, is less than an hour away by train or car, and Copenhagen Airport – the closest major international airport – is only 35 minutes from Lund. In addition, Lund is just a 10 minute train ride away from Malmö, the third largest city in Sweden.

As one of the oldest cities in Sweden, dating back to 990, Lund is a city of contrasts, where 1,000 years of history blends with modern knowledge and ideas. The combination of businesses, students and researchers from around the world has created Lund’s unique character as a city of strong research-based global industries. Lund is a part of Greater Copenhagen – one of Scandinavia’s most knowledge-intensive areas.

The city itself is compact and charming, with picturesque old houses, cobbled streets and beautiful green surroundings. Student cafés, nightlife, a vibrant and intellectually stimulating atmosphere, rich culture and a wide assortment of leisure activities all contribute to making Lund a memorable study destination.

The University lies in the heart of the city. In Lund, everything is close at hand and within reach on foot or by bicycle, which adds to the city’s appeal. In addition, there is a comprehensive public transport system including buses and trains to transport you in and around Lund, Sweden and Copenhagen.

CITY OF BIKES
Did you know that the city of Lund has 5,000 bike parking spaces and 160 km of bike paths? Every day, people in Lund cycle as much as 4 times around the world together!
Helsingborg campus

Helsingborg is a scenic coastal city located 30 minutes away by train from Lund. Around 4,000 students study at Campus Helsingborg in subjects including service management, strategic communication, energy-efficient building design, social work and some undergraduate engineering courses. The campus is within a short walking distance from the central station and city centre. Most students studying at Campus Helsingborg also live in the city, which has popular beaches and a lively atmosphere.

Malmö campus

Malmö is the third largest city in Sweden and is only 10 minutes by train from Lund and 35 minutes from central Copenhagen. Many Lund University students live in Malmö and commute to Lund, while students living in Lund often visit Malmö to enjoy its many shops, nightclubs and cultural and sporting events. The city is home to Lund University’s Faculty of Fine and Performing Arts, comprising the Malmö Academy of Music, the Malmö Art Academy and the Malmö Theatre Academy. In addition, some of the University’s medical research and training as well as public health education are conducted in Malmö at the Clinical Research Centre (CRC) and the Skåne University Hospital.

Sweden: Sustainability – Equality – Democracy

Sweden is a safe, modern and eco-conscious country with a great global reputation and high living standards. Sweden is one of the world’s most creative and innovative countries and boasts many well-known global companies and cultural brands. In addition, Sweden is ranked as one of the best countries in the world at providing higher education and is home of the Nobel Prize – the world’s most prestigious academic distinction.

DID YOU KNOW THIS ABOUT SWEDEN?

- One of Europe’s largest countries by size, but only 10 million inhabitants
- Ranked as the 3rd most innovative in the world
- Has the largest number of global companies per capita in the world
- No 2 in the world at English as a second language
- Ranked as one of the best in the world at providing higher education
- Is one of the world’s most creative countries
- 99% of all waste is recycled
- Inhabitants in Sweden have the right to roam freely in nature, even on privately-owned land
- Is among the top countries in global rankings on democracy, equality, innovation and standard of living
- Swedes love their traditions and cultural events, such as Midsummer, Lucia and the daily ‘fika’
- Swedish parents enjoy 480 days of paid parental leave, shared between the mother and the father

Studies at Lund University

With more than 100 Master’s degree programmes, nine Bachelor’s degree programmes, and hundreds of stand-alone courses, taught in English, Lund University offers international students an extensive range of education. In addition, the University has agreements with many top universities around the world, offering excellent opportunities for exchange studies.

BACHELOR’S AND MASTER’S STUDIES
Choosing international Bachelor’s or Master’s studies at Lund University gives you more than just a high-quality education. International programmes provide excellent opportunities to form a global network of professional colleagues, as well as establishing contacts locally in Sweden.

Many programmes taught at Lund University employ a multi- or interdisciplinary approach in an environment of exceptional academic competence and cultural diversity. Education is closely tied to current research and many of the courses are unique. International guest lecturers and speakers from businesses, governments, NGOs and research fields regularly feature as part of the curriculum to further connect studies to the professional world.

We educate the knowledge generators, problem solvers and leaders of tomorrow. Many leading politicians, entrepreneurs, lawyers and cultural figures received their education at Lund University. Our alumni have been successful in finding employment with prominent organisations such as the UN, WHO, UNESCO, UNICEF, World Bank and many leading companies such as Electrolux, Google, Sony, Tetra Pak, SAS, L’Oréal, IKEA and Unilever, to name a few.

With more than 100 Master’s degree programmes, nine Bachelor’s degree programmes, and hundreds of stand-alone courses, taught in English, Lund University offers international students an extensive range of education. In addition, the University has agreements with many top universities around the world, offering excellent opportunities for exchange studies.

EXCHANGE STUDIES
Lund University is a very popular student exchange destination in Europe and receives more than 1 500 exchange students per year from across the globe. Lund University has exchange agreements with over 640 universities in around 70 countries. Students can come to Lund University for exchange at both Bachelor’s and Master’s level. Lund University offers hundreds of courses suitable for exchange students, taught in English, across a wide range of subject areas.

WHAT ARE EXCHANGE STUDIES?
Exchange studies implies that your home university has a formal exchange agreement with Lund University. The agreement can be university-wide agreement or specific to a faculty or department. In order to come to Lund University as an exchange student for a semester or a year, you must first be nominated by your home university for these studies. Once you have been nominated for the exchange, you can apply to the available courses that Lund University offers.

Read more at www.lunduniversity.lu.se/international-admissions/exchange-and-study-abroad

APPLYING FOR EXCHANGE STUDIES AT LUND UNIVERSITY
If you wish to study at Lund University as an exchange student, start by contacting the International Office at your home university to check if there is an agreement with Lund University. You apply for exchange studies through your home university and must be nominated by them in order to start your exchange at Lund University.

OPPORTUNITIES TO STUDY ABROAD
Many of our Bachelor’s and Master’s programmes offer the opportunity to apply for an exchange or do an internship abroad at one of our many partner universities as a part of the programme. You can also apply for scholarships to study abroad.

INTERNATIONAL CLASSROOM
Lund University is proud to have a strong international profile with students from all over the world. This creates a global classroom environment where students encounter different cultural perspectives and can start building their global network.

STUDY STRUCTURE
Studies are usually undertaken one course at a time, with an examination or essay at the end of each individual course. For some programmes, for example in economics and engineering, it is common to have two or more courses in parallel. Courses can be anything from 2–20 weeks long (with 5, 10 and 20 weeks being the most common). Methods of instruction can vary greatly. Lectures with groups of 25–30 students are the most common form of instruction. Some courses, mainly in engineering, have as many as 30 formal lecture hours per week as well as laboratory work, while others, for example in the social sciences, may only have 10 hours in class, and rely more on the students’ individual reading. A total of 30 ECTS credits per semester is considered as full-time studies.

RESEARCH-INTENSIVE SETTING
Education at Lund University is closely aligned to current research, often drawing on the interdisciplinary approach that has helped Lund University secure the place of Sweden’s strongest research university.

ACADEMIC YEAR 2021/22
The official academic year is divided into two semesters, each lasting 20 weeks:
• 2021 autumn semester: 30 August – 16 January
• 2022 spring semester: 17 January – 5 June
Lund University is known for its variety of student organisations, including the 'nations' of Lund, the Academic Society and student unions. Together these student organisations have created many long-standing student traditions, and their combined activities, available through the 'Studentlund' membership, form the heart and soul of student life in Lund today. It is no surprise that Lund is considered the best student city in Sweden!

**THE NATIONS**
The 13 nations are large, welcoming student societies that are unique to Sweden. Getting involved in a student nation is one of the best ways to meet friends and enjoy student life at Lund University. The nations organise a lot of social activities, including pub nights, clubs (e.g., photography, baking, music), sports as well as parties, concerts, cheap dinner nights and other social events. The nations are named after cities or regions across Sweden and, historically, they were a way for students from those areas to connect. Today, the nations are thriving student societies that offer something for every student, no matter what your interests are or where you are from.

**THE ACADEMIC SOCIETY**
The Academic Society (‘Akademiska Föreningen’ or ‘AF’) organises a number of events and student activities including ‘Studentafton’ (evening interviews with high-profile international guests that have included prime ministers, the Queen of Sweden, Jimi Hendrix, Ingmar Bergman, Will Ferrell, Ella Fitzgerald and more), student radio, student theatre, costume hire, ‘Spex’ comedy musicals, lectures and art and cultural events. The Academic Society also owns and manages AF Bostäder accommodation.

**STUDENT UNIONS**
The student unions are engaged in politics and student rights and actively contribute to the way in which the University is run.

**SPORTS**
For sports enthusiasts, there are plenty of opportunities to participate in social sports activities through the nations or to join local sports clubs. Within and around Lund, there is a range of sporting and exercise facilities, including swimming pools, tennis courts, climbing centres, sports fields, arenas and Scandinavia’s largest fitness and health centre for students and staff. Coming to Lund University is also a great opportunity to experience the beautiful nature and outdoors of Sweden. City parks, cycling and walking routes, hiking areas and beaches are all within easy reach.

**UNIQUE STUDENT TRADITIONS**
- ‘Lundakarnevalen’, the student carnival – a tradition since 1849.
- ‘Spex’ student theatre – one of the most eccentric traditions since 1898.
- ‘Studentafton’ has been a tradition since 1905 and is organised by the Academic Society. Well-known guests are interviewed in an intimate, informal setting.
- ‘Sista April’ or ‘Valborgsmässoafton’ is celebrated on 30 April with students gathering in the city park.
- ‘Sittning’ – a formal sit-down dinner party with singing and socialising.
- The Lund University Male Voice Choir’s annual May Day appearance is a tradition that dates back to 1831.
Student accommodation is offered by a range of different providers. Lund University does not own housing, but rather rents and offers housing from other facility owners. Students can apply for these housing options through LU Accommodation, but can also find housing through private landlords or the Academic Society.

**LU ACCOMMODATION AND OTHER PROVIDERS**

LU Accommodation is a service at Lund University which manages some of the student housing available in Lund, Malmö and Helsingborg, including housing for students with a housing guarantee. Most students who do not have a housing guarantee find housing in and around the University campus towns through private landlords or AF Bostäder (the Academic Society’s housing).

As Lund is a very popular student city, there is a limited supply of student rooms. LU Accommodation offers their supply of rooms to students with a housing guarantee in the first instance and then allocates remaining rooms to other new students. Students without a housing guarantee are ultimately responsible for finding their own housing and are recommended to look for accommodation through the BoPoolen.nu housing website (run by the student unions) or through other housing services offering accommodation with private landlords and housing agencies.

**HOUSING TYPES AT LU ACCOMMODATION**

- **Corridor rooms:** These single occupancy rooms are along a corridor of 10–12 rooms. Shared or private bathroom. Shared kitchen area and living room space.
- **Studio flats:** Self-contained rooms that combine a living room, bedroom, bathroom and kitchenette into one single unit. Only the laundry room is shared with other students.
- **Shared apartments:** Apartments with two separate bedrooms, a shared living room, bathroom and kitchenette.

**HOUSING GUARANTEE FOR CERTAIN INTERNATIONAL STUDENT CATEGORIES**

Students who are required to pay tuition fees and who are coming to study full-time courses of at least 30 ECTS credits have a guaranteed offer of housing. Read more about the conditions of the housing guarantee at [www.luaccommodation.lu.se](http://www.luaccommodation.lu.se).

**COSTS FOR ACCOMMODATION**

As there are different types of accommodation and many facility owners, the rent will vary between the housing options. However, if you rent accommodation from LU Accommodation, you can expect typical rents to range from SEK 3 200–5 000 per month, depending on the specific accommodation you are offered. You will also need to pay a deposit when you sign the contract with LU Accommodation. The rooms and flats are usually furnished with a bed, mattress, desk, chair, bookshelf and basic lighting fixtures.

Learn more about finding housing at [www.lunduniversity.lu.se/housing](http://www.lunduniversity.lu.se/housing) and at [www.luaccommodation.lu.se](http://www.luaccommodation.lu.se).

Arrival and Student Services

Lund University is there to support you from your application, during your studies and to graduation and beyond. Student services are offered at all levels of the University and range from arrival activities and academic support, to student health matters and alumni relations.

**ARRIVAL DAY AND ORIENTATION:** On Arrival Day, international students are greeted at Copenhagen Airport and collected from the train station in Lund before heading to the University to complete various practical matters and to sign up for excursions and activities. Students with housing from LU Accommodation receive their keys and are driven to their accommodation. Following the international student Arrival Day, an extensive programme is offered during the Orientation Weeks with a range of both practical and fun social and cultural events to help new Lund University students settle in and make friends.

As a part of the Orientation Weeks, most new students join the activities offered through the International Mentor Programme. The mentor groups are led by current students who help new international students adapt to their environment in Sweden and meet new friends. The mentors organise social activities both during the Orientation Weeks and throughout the semester to welcome students and show them around the campus and the city.

**STUDENT SERVICES INCLUDE...**

- Support and information during the application period
- Arrival and Orientation Weeks
- International Desk for help with practical questions
- LU Accommodation
- The Academic Support Centre
- Student Health Services
- Disability Support Services
- Career services with guidance and seminars on working in Sweden
- Student portal and email account services
- Study guidance
- 26 libraries with support for studies and research
- Venture Lab and LU Innovation for entrepreneurship and business advice
- The Alumni Network with a global network of over 41 000 graduates

Learn more about student services at: [www.lunduniversity.lu.se/student-life](http://www.lunduniversity.lu.se/student-life).
Bachelor's Programme in Fine Arts

Entry requirements
You must meet the general entry requirements for higher education studies in Sweden or equivalent. You must also have a portfolio of artistic work samples.

Programme overview
The Bachelor’s Programme in Fine Arts (BA) prepares you to become an artist or work in the arts. This programme is designed to provide you with the skills and knowledge to make your own creative choices and to develop your own artistic style.

Bachelor’s Programme in International Business

Entry requirements
General requirements and courses corresponding to the following Swedish upper secondary school subjects: Mathematics 3b/4b, English Level 6.

Programme overview
This programme is designed to prepare you for a future career in international business. You will learn about the principles of international business and the challenges of operating in a global market.

Bachelor’s Programme in Mathematics

Entry requirements
General requirements and courses corresponding to the following Swedish upper secondary school subjects: Mathematics 3b/4b, School of Economics and Management, Lund campus.

Programme overview
This programme is designed to prepare you for a future career in mathematics. You will learn about the principles of mathematics and the challenges of operating in a global market.

Bachelor’s Programme in Music Performance, Symphony Orchestra Instrument

Entry requirements
General requirements and approved examination test.

Programme overview
This programme is designed to prepare you for a future career in music performance. You will learn about the principles of music performance and the challenges of operating in a global market.

Bachelor's and Master's programme directory

Bachelor's Programme in Biomedicine

Entry requirements
General eligibility (with exemption from Swedish language proficiency). Courses corresponding to the following Swedish upper secondary school courses: Biology 2, Chemistry 2, Mathematics 6, or the equivalent courses. English Level 6.

Programme overview
This programme is designed to prepare you for a future career in biomedicine. You will learn about the principles of biomedicine and the challenges of operating in a global market.

Bachelor’s Programme in Development Studies

Entry requirements
To be eligible for the programme, the student must fulfill the general entry requirements and courses corresponding to the following Swedish upper secondary school courses: Civics A, or Civics 1b/1a1+1a2. English Level 6.

Programme overview
This programme is designed to prepare you for a future career in development studies. You will learn about the principles of development studies and the challenges of operating in a global market.

Bachelor’s Programme in Economy and Society

Entry requirements
General requirements and courses corresponding to the following Swedish upper secondary school subjects: Mathematics 3b/4b and Social Studies 1b/1a1+1a2. English Level 6.

Programme overview
This programme is designed to prepare you for a future career in economy and society. You will learn about the principles of economy and society and the challenges of operating in a global market.

Bachelor’s Programme in Fine Arts

Entry requirements
You must meet the general entry requirements for higher education studies in Sweden or equivalent. You must also have a portfolio of artistic work samples.

General requirements and approved examination test.

Programme overview
This programme is designed to prepare you for a future career in music performance. You will learn about the principles of music performance and the challenges of operating in a global market.

Bachelor's Programme in Biomedicine

Programme overview
This programme is designed to prepare you for a future career in biomedicine. You will learn about the principles of biomedicine and the challenges of operating in a global market.

Bachelor’s Programme in Development Studies

Programme overview
This programme is designed to prepare you for a future career in development studies. You will learn about the principles of development studies and the challenges of operating in a global market.

Bachelor’s Programme in Economy and Society

Programme overview
This programme is designed to prepare you for a future career in economy and society. You will learn about the principles of economy and society and the challenges of operating in a global market.
BACHELOR’S PROGRAMMES IN PHYSICAL GEOGRAPHY AND ECOLOGY SCIENCE

To be eligible, applicants must have completed their following Swedish upper secondary school courses:
- Chemistry 1 or level 2 in two of these subjects.
- Chemistry 1 and Mathematics 4.
- English Level 6.

Entry requirements
- General requirements and courses equivalent to the Entry requirements in Physical Geography and
- www.lunduniversity.lu.se/pre-bachelors

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/bsc-physical-geography

PRE-BACHELOR’S PREPARATION PROGRAMME
In collaboration with ÖNOCAMPUS Lund, Lund University offers a Pre-Bachelor’s Preparation Programme for students who are planning to study the Bachelor’s Programme in Mathematics, Physics or Physical Geography and Ecology Science.

The Pre-Bachelor’s Preparation Programme is a three-term programme designed for academically talented students who do not fulfill all the specific entry requirements of the Bachelor’s programmes in science at Lund University. It is a comprehensive academic and English language programme that comprises modules in academic English, Mathematics, Physics and Study Skills.

For more information, see www.lunduniversity.lu.se/pre-bachelors

BACHELOR’S PROGRAMME IN PHYSICS

Entry requirements
- General and courses corresponding to the following Swedish upper secondary school studies: Physics 2, Chemistry 1 and Mathematics 4. English Level 6.

- www.lunduniversity.lu.se/bc-physical-geography

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/bc-physical-geography

Swedish Language Programme (non-degree)

Entry requirements
- To be eligible, applicants must have completed their upper secondary school studies and meet the English language requirements of English Level 6.

- www.lunduniversity.lu.se/bc-physical-geography

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/bc-physical-geography

MASTER’S PROGRAMMES

ARCHITECTURE & DESIGN

The School of Architecture at Lund University produces creative architects with the ability to identify and address problems within the field of architecture and sustainable design.

Leaders in architecture from all over the world are regularly visiting as guest lecturers. Students have access to state-of-the-art facilities allowing each student their own working area and access to computers, workshops and digital fabrication shops with equipment such as 3D printing, laser cutting and CNC milling.

The School of Industrial Design focuses on ongoing changes in society, business and research. With a cross-disciplinary approach and professional interaction, this programme teaches skills to navigate the limitless field of design, communicate solutions and stand for results. Through projects, workshops, competitions and exhibitions, students train ‘hard’ and ‘soft’ skills alike. The programme-related partnerships with companies, institutions and other universities allow you to develop your creativity and personality both independently and in cooperation with others.

Master’s Programme in Architecture

Entry requirements
- A Bachelor’s degree in Architecture. A digital portfolio of the applicant’s own work in the field that clearly proves that the applicant has good potential to benefit from the programme. English Level 6.

Programme overview
- With new challenges for architecture such as denser cities, increased globalisation, climate adaptation and the rapid evolution of technology, the need for skilled architects who understand these challenges is growing. This programme combines independent, design-led studies with theoretical and practical courses where students learn to find future-focused solutions to real-world issues in order to produce skilled graduates that can compete on a global level. Students can choose from two specialisations: Advanced Architectural Design or Spatial Experiment (Architecture and Digital Process).

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/architecture

Master’s Programme in Industrial Design

Entry requirements
- A Bachelor’s degree with relevance to the applied education. A digital portfolio of the applicant’s own work in the field that clearly proves that the applicant has good potential to benefit from the programme. English Level 6.

Programme overview
- Students in this programme will conduct individual industrial design projects, participate in workshops and contribute to the creation of knowledge within the field of design. By organizing workshops, lectures and workshops, you will communicate your work and participate in the public debate. Students will become authorities in their chosen subject and the programme encourages the in-depth debate and development of the discipline. Upon completion of the programme, students will be well-prepared to continue these discussions as designers, entrepreneurs, design coordinators, managers or researchers. Alumni have gone on to successful careers at companies such as Google, IKEA, Sony, Tetra Pak, Husqvarna, Electrolux, H&M, as well as to PhD studies.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/industrial-design

Master’s Programme in Sustainable Urban Design

Entry requirements
- A Bachelor’s degree in architecture, landscape architecture, physical planning or urban design. A digital portfolio of the applicant’s own work in the field that clearly proves that the applicant has good potential to benefit from the programme.

Programme overview
- Making the world’s growing cities healthy, attractive and sustainable is an exceptional challenge. Drawing on best practices and advanced research into urban form, urban quality and sustainability, this programme prepares highly skilled professionals capable of meeting the challenges of sustainable urban design as unique individuals who are creative, insightful and intellectually skilled in their approach. Graduates are highly sought after on the global market, finding positions in architectural offices or government organisations. Others choose to pursue further studies at PhD level. Our students have the opportunity to build a strong initial network that can help kick-start and develop their careers.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/sustainable-urban-design
Master's Programme in Accounting and Finance

Entry requirements
An undergraduate degree (BA/BSc) with at least 60 ECTS in business administration, or equivalent knowledge obtained through courses in related fields and at least one completed introductory course in each of accounting and corporate finance, and at least 15 ECTS in financial accounting, management accounting and control, and/or corporate finance on the intermediate or advanced undergraduate level and at least one course in economics or statistics, covering cross-sectional and/or panel regression analysis. English Level 6.

• Master of Science with a major in Economic Development and Growth • 2 years, full-time, 120 ECTS credits • School of Economics and Management • Lund campus • Tuition fee SEK 120 000 per year for non-EU/EEA citizens. No fee for EU/EEA citizens

Programme overview
This programme is designed for students interested in careers across a wide range of sectors and regions in the fields of business, consulting, and finance. You will gain an advanced level of understanding of the theories and practices, and apply these skills in practical decision contexts. Strong emphasis is put on training your abilities to discerningly and critically apply your knowledge in decision situations, and you will meet challenging, team-based projects, cases, and experiments. The programme structure is flexible in that much of the course work consists of elective courses. This allows you to design a preferred specialisation within the broader area of accounting and corporate finance.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/accounting-finance

Master’s Programme in Economic Development and Growth

Entry requirements
An undergraduate degree (BA/BSc) or the equivalent, with a major in economics. A solid background of mathematics, statistics and econometrics is required. English at Level B2 or Higher of the CEFR-Common European Framework of Reference for Language is required. See programme web page for details.

• Master of Science with a major in Economic Development and Growth • 2 years, full-time, 120 ECTS credits • School of Economics and Management • Lund campus • Tuition fees, see www.lusem.lu.se/study/masters

Programme overview
This double degree programme, you spend the first year at either Universidad Carlos III de Madrid or University of Groningen. The programme trains the next generation of analysts, researchers and professionals in the field of development and growth. It combines the expertise of three highly ranked European universities into a common platform with leading scholars in economics, economic history and demography. A hallmark of the programme is the emphasis on the personal contact between professors and students, achieved by small classes. You will, in close supervision of a highly qualified faculty member, complete two independent research projects (thesis) both at the end of year 1 and year 2 of the programme.

For programme details, full entry requirements, application steps and selection, visit the programme web page:www.lusem.lu.se/study/masters/medeg

Master’s Programme in Economic Growth, Population and Development

Entry requirements
An undergraduate degree (BA/BSc) with at least 60 ECTS credits in economics, economic history, history, statistics, or the equivalent. English Level 6.

• Master of Science in Economic History, Economic Demography or Economic Development • 2 years, full-time, 60 ECTS credits • School of Economics and Management • Lund campus • Tuition fee SEK 120 000 per year for non-EU/EEA citizens. No fee for EU/EEA citizens

Programme overview
The programme aims to explore the general history of population and production, population and living standards, institutions and social organisation. You will gain knowledge to carry out investigations and analyses concerning changes of social and economic conditions under different circumstances. The programme is organised into three different tracks: Economic History, Economic Demography or Economic Development. When applying for the programme, you also select which track you want to specialise in. The different tracks share courses to some extent.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/economic-growth-population-development

Master’s Programme in Economics

Entry requirements
An undergraduate degree (BA/BSc) with at least 60 credits in economics, which must include courses in intermediate microeconomics and econometrics (quantitative methods), or the equivalent knowledge. English Level 6.

• Master of Science in Economics • 2 years, full-time, 120 ECTS credits • School of Economics and Management • Lund campus • Tuition fee SEK 120 000 per year for non-EU/EEA citizens. No fee for EU/EEA citizens

Programme overview
The programme is designed for students interested in careers in research institutions and in governmental and intergovernmental organisations. You will be provided with knowledge and skills necessary to carry out research, and will gain an advanced level of understanding of the theories and practices, and apply these skills in practical decision contexts.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/economics

Master’s Programme in Entrepreneurship and Innovation

Entry requirements
An undergraduate degree (BA/BSc). English Level 6.

• Master of Science in Entrepreneurship and Innovation • 1 year, full-time, 60 ECTS credits • School of Economics and Management • Lund campus • Tuition fee SEK 120 000 per year for non-EU/EEA citizens. No fee for EU/EEA citizens

Programme overview
Entrepreneurial skills enable the successful discovery and exploitation of opportunities in the market as well as driving innovation and business development projects in existing corporations. The programme suits individuals with a strong interest and passion for entrepreneurship and an orientation towards getting things done. To support your entrepreneurial and innovative actions we take great care to embed activities within the sophisticated entrepreneurial and innovation ecosystem of Lund and the surrounding cities.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/entrepreneurship-innovation

Business, Management & Economics

SCHOOL OF ECONOMICS AND MANAGEMENT
Graduates from the School of Economics and Management (LUSEM) are well equipped to be leaders of tomorrow. We are truly international, belonging to the 1% of business schools worldwide that hold both EQUIS and AMBA accreditations. The commitment to making a difference drives the School’s learning culture in its focus on student learning, innovation and engagement – all in an international atmosphere. We aim to support our students in their learning journeys towards being capable of tackling global challenges. We do this via a high degree of case-based learning, inviting our students to take part in experiential learning in a way that connects theories with practice. We have a highly qualified faculty with an international outlook and innovative pedagogical approaches, ensuring state-of-the-art teaching. All our programmes reflect the Scandinavian flair on ethics and sustainability, providing a solid foundation for future career ambitions. At LUSEM you learn both to make a difference and to make it happen.

INTERNATIONAL MASTER CLASS
LUSEM invites students enrolled in selected one-year Master’s programmes to apply for an ‘International Master Class’ at one of our prestigious international partner universities. This is a unique opportunity to add on a semester to the Master’s studies in Lund. Each university has been selected to complement selected Master’s programmes at LUSEM. As a student participating in the International Master Class, you will take Master’s-level courses in line with your major subject, to deepen your expertise in your specialisation while adding a further global aspect to your education.

www.lusem.lu.se/study/international-opportunities/master-class

DOUBLE DEGREE
A double degree programme means that you will spend one semester or one year abroad, and obtain a Master’s degree from both Lund University and from the partner university. In addition to a valuable international experience, this gives your education an extra edge and the opportunity to benefit from the expertise and resources from two well-renowned universities.

www.lusem.lu.se/study/international-opportunities/double-degree-programmes

NEW MSC PROGRAMME IN DATA ANALYTICS AND BUSINESS ECONOMICS
Starting from the autumn of 2021, LUSEM is proud to introduce the MSC in Data Analytics and Business Economics. Do you want to understand the role of data analytics for the digital economy, and how organisations can use this to gain a competitive edge? To understand the strategic and operational impact that “big data” has on business development? Graduates of the programme will become professionals in aggregating, analysing and communicating quantitative information to the management of organisations.

Master’s Programme in European and International Trade and Tax Law

Entry requirements
An undergraduate degree in law (LL.B) including 15 ECTS credits in tax law, or an undergraduate degree in economics or business administration (B.A/BSc) including 10 ECTS credits in tax law or equivalent knowledge. English Level 6.

Programme overview
International trade evolves rapidly. Those interested in doing business within the EU and globally must know the rules governing their business operations. Contemporary international tax law involves multiple fields of law, which affect all aspects of business. Firms and institutions must constantly be prepared to adapt to new challenges. For example, current considerations and other issues of sustainability transform the business environment globally. In addition, digitalisation, artificial intelligence and automation create new legal issues for businesses and legislators. The programme, which builds on previous studies in law, management and/or economics, provides an in-depth understanding of both the practical and theoretical aspects of trade and tax law within the EU as well as globally.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/european-int-tax-law

Master’s Programme in Finance

Entry requirements
An undergraduate degree (B.A/BSc) with at least 90 ECTS credits in business administration and/or economics. These must include a course in basic microeconomics (which can be a part of a course in basic economics), a course in intermediate finance and a course in econometrics or statistics. English Level 6.

Programme overview
This programme is ranked in the Financial Times’ prestigious ranking of the best Master’s in Finance in the world. This fast-paced programme extends your knowledge of all major areas of financial decision-making. You’ll gain a thorough understanding of financial markets and instruments, effective financial analysis, investment and resolution of complex financial problems. The programme is research-based and driven by the principle of academic rigour in practical application. You will learn the economic, mathematical and empirical concepts in both financial economics and corporate finance. As a MSc Finance student, you have access to extensive data resources, including Bloomberg terminals.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/finance

Master’s Programme in Information Systems

Entry requirements
An undergraduate degree (B.A/BSc) with at least 60 credits (ECTS) of IS-related courses. These must include: (1) Foundations and Stats of IS, (2) Systems Analysis and Design, (3) Data and Information, (4) Human-Computer Interaction, and (5) Organisation and IS. English Level 6.

Programme overview
This programme provides you with the tools and skills to understand the design of information systems that address important organisational and societal challenges. In this programme you will learn how information and communication technologies and artificial intelligence can be used to achieve strategic goals, and how to design and develop modern information systems which are flexible to the goals and needs of the organisation. You will gain a deeper understanding of the technological processes context of information systems and how digitalisation affects organisations. After graduation, you can pursue a career that links technology, people and business. You can seek positions such as systems architect, IT consultant, IS designer, IT project manager, UX designer, business and system analyst, business process engineer and business intelligence analyst.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/information-systems

Master’s Programme in Innovation and Global Sustainable Development

Entry requirements
An undergraduate degree (B.A/BSc) with at least 60 ECTS credits in business administration, economics, economic history, history, social and economic geography or statistics, or the equivalent. English Level 6.

Programme overview
Innovation is fundamental in the process of economic, social and environmentally sustainable development. You will be provided with the theory, concepts and methods to analyse and understand the role of innovation in economic, social and sustainable development from a historical perspective. The unique focus on spatial dynamics, demographics, economic history and economic history enables you to gain insights on how the areas of development and innovation interact, evolve and shape the economy in different regions and periods of time. You will then be better equipped to understand and analyse the grand challenges such as climate change, food security and poverty alleviation.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/innovation-global-development

Master’s Programme in International Marketing and Brand Management

Entry requirements
An undergraduate degree (B.A/BSc) with at least 60 ECTS credits in business administration or the equivalent. Level 6.

Programme overview
Do you want to help businesses gain insight by providing them with trend analysis, consumer and marketing research, business intelligence, scenario planning, strategy and innovation? Graduates from this programme can seek positions in business, marketing, brand and product management, sales and marketing research. The initial fifteen weeks of the programme are organised into two tracks. When applying to this programme, you must also select which track you want to follow, either a more management-oriented perspective or a perspective that puts an emphasis on consumer and cultural aspects.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/int-marketing-brand-management

Master’s Programme in International Strategic Management

Entry requirements
An undergraduate degree (B.A/BSc) of at least 3 years, 180 ECTS credits. Initial fee for 60 ECTS credits in business administration. English Level 6.

Programme overview
This programme equips you with a thorough understanding of strategic thinking and the key skills of business consulting. We offer the latest insights into managerial strategy through a variety of small-scale teaching methods, ensuring an exciting and challenging learning experience. We emphasise both sophisticated scientific insights and linkages with business practice. Graduates from this programme can seek positions in domestic, international and global firms with managerial roles, as well as specialist roles within organisational settings. Knowledge in these areas of specialisation can be demanding, and there are very few, if any, Master’s programmes in the Nordic countries with this attractive specialisation.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/int-strategic-management

Master’s Programme in Management (MIM)

Entry requirements
An undergraduate degree (B.A/BSc) with a major other than business administration and/or management. English Level 1.

Programme overview
• Master of Science with a major in Business Administration, specialisation in International Marketing and Brand Management. Level 1 year, full-time, 60 ECTS credits
• School of Economics and Management • Lund campus
• Tuition fee SEK 120 000 per year for non-EU/EEA citizens. No fee for EU/EEA citizens

Programme overview
This extrememly intensive, one-year, full-time programme prepares non-business graduates for a wide range of careers in management. You will learn to apply the skills you acquire in a range of areas including marketing, strategic management, business consultancy and organisational development. You will refine and build upon your communication, teamwork and presentation skills through individual and group work, and develop your professional skills in decision-making, problem solving, analysis and critical reflection. During the studies, you are continuously encouraged to reflect, apply and relate new knowledge to future career ambitions. Some key elements of the programme are: the base team; the learning journal; the learning tutorial; career coaching; shadowing a manager; the organisation project; the business game.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/management

Master’s Programme with a major in Business Administration, specialisation in International Strategic Management

Entry requirements
• Master of Science with a major in Business Administration, specialisation in International Strategic Manage- ment. Level 1 year, full-time, 60 ECTS credits
• School of Economics and Management • Lund campus
• Tuition fee SEK 120 000 per year for non-EU/EEA citizens. No fee for EU/EEA citizens

Programme overview
This programme equips you with a thorough understanding of strategic thinking and the key skills of business consulting. We offer the latest insights into managerial strategy through a variety of small-scale teaching methods, ensuring an exciting and challenging learning experience. We emphasise both sophisticated scientific insights and linkages with business practice. Graduates from this programme can seek positions in domestic, international and global firms with managerial roles, as well as specialist roles within organisational settings. Master’s Programme with a major in Management

Entry requirements
• Master of Science with a major in Management. Level 1 year, full-time, 60 ECTS credits
• School of Economics and Management • Lund campus
• Tuition fee SEK 130 000 per year for non-EU/EEA citizens. No fee for EU/EEA citizens

Programme overview
This extremely intensive, one-year, full-time programme prepares non-business graduates for a wide range of careers in management. You will learn to apply the skills you acquire in a range of areas including marketing, strategic management, business consultancy and organisational development. You will refine and build upon your communication, teamwork and presentation skills through individual and group work, and develop your professional skills in decision-making, problem solving, analysis and critical reflection. Master's Programme in Energy-Efficient and Environmental Building Design

Entry requirements
A Bachelor's degree in architecture, civil engineering, mechanical engineering, or equivalent. Completed courses within the following three subjects: building technology, structural engineering, building physics and building services. Minimum grade of 2 credits/ECTS is required for each of these three subjects. In addition, a total of 30 credits/ECTS is required for the sum of any combination of courses within energy and building technology/structural engineering, building physics, building services, building materials and architecture. English Level B.

Programme overview
Buildings are responsible for a large share of our global energy use. Energy use is in fact the main determinant of a building's global environmental footprint, considering its life span. Students graduate with advanced knowledge and skills in the area of energy-efficient and environmental building design in heating dominated climates. Our goal is to train highly skilled professionals who will significantly contribute to and influence the design, building or renovation of energy-efficient buildings and related to renewable energy supplies, taking into consideration the architecture and environment, the inhabitants' behaviour, needs, health and comfort, as well as the overall economy.

Programme details
For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/eebd

Master's Programme in Fire Safety Engineering

Entry requirements
A Bachelor's degree in fire engineering, fire engineering, architectural engineering or equivalent. completed courses within the following three subjects: building technology, structural engineering, building physics and building services. Minimum grade of 2 credits/ECTS is required for each of these three subjects. In addition, a total of 30 credits/ECTS is required for the sum of any combination of courses within energy and building technology/structural engineering, building physics, building services, building materials and architecture. English Level B.

Programme overview
Together we explore, and create for-the benefit of the world. A world record in 5G technology, solar cell driven water purification, early cancer diagnosis, nanotechnology for more efficient solar supplies, taking into consideration the architecture and environment, the inhabitants' behaviour, needs, health and comfort, as well as the overall economy.

Programme details
For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/eebd

Master's Programme in Food Innovation and Product Design

Entry requirements
BSc degree or equivalent degree of at least 180 ECTS in equivalent in food science and technology, biotechnology, process engineering, biochemistry, nutrition or food-related fields with a number of prerequisites (30 credits (15 ECTS) in food technology, biotechnology, biocatalysis, technology/structural engineering, biochemistry, microbiology, statistics) representing at least three years of study from an institute of higher education. English language proficiency level B2.

Programme overview
The Dramus Mundus Joint Master Degree in Food Innovation and Product Design (FIPDES) is a two-year academic programme offered in cooperation between five European universities. Graduates will be able to take on the huge challenges and opportunities in the sector of food innovation, product design and packaging. They will typically either start their own manufacturing or consulting business, find positions either in their country or in a national branch of a major international food brand, or they will return to academia as doctoral students within the food/innovation field.

Programme details
For programme details, full entry requirements, application steps and selection, visit the programme web page: www.fipdes.eu

Master's Programme in Food Technology and Nutrition

Entry requirements
A Bachelor's degree in food technology, food engineering, chemical engineering, environmental biotechnology, chemistry, or equivalent. Completed courses in mathematics/statistics, microbiology, chemistry and biochemistry. English Level B.

Programme overview
The programme is aimed at students who want to create innovative future foods and find solutions to health issues such as obesity or malnutrition. Students are equipped with the ability to present health benefits within food chemistry, food processing, surface and colloid chemistry, microbiology, nutrition, and food technology. While aligning to market needs through a strong emphasis on engineering sciences and innovation, the programme uses links to local industry, which means some researchers have converted results into successful enterprises, such as Daal, Öpftefors and Froli. Graduates have found jobs within the food industry, the public sector, as research institutes and PhD positions.

Programme details
For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/food-technology
Master's Programme in Logistics and Supply Chain Management

Entry requirements
A Bachelor's degree in engineering (e.g., industrial engineering and management, mechanical engineering, or computer science), of which at least 30 ECTS in mathematics, calculus, linear algebra, operations research or management, and at least 30 ECTS in chemical engineering and/or production technology and one in control engineering. English G.

Programme overview
The Master’s Programme in Logistics and Supply Chain Management at Lund University is designed to give students the tools and expertise to be able to analyze, evaluate and optimize complex manufacturing and production systems involving engineering, production and logistics. The programme provides a unique combination of courses in mathematics, statistics, production and logistics, supply chain management and factory design. The programme focuses on developing students’ ability to work in interdisciplinary teams and to approach complex problems with a systems perspective. The programme includes courses in production and logistics, supply chain management, factory design, and project management. Students also have the opportunity to complete a thesis in an area of their choice. English G.

Programme details, full entry requirements, application steps and selection, visit the programme webpage: www.lunduniversity.lu.se/logistics-supply-chain

Master's Programme in Machine Learning, Systems and Control

Entry requirements
A Bachelor's degree in science or engineering. Completed courses in mathematics, calculus, linear algebra, and probability theory at least 40 credits/ECTS in physics and 30 credits/ECTS in mathematics, covering quantum mechanics, solid-state physics, multi-dimensional calculus, linear algebra and Fourier analysis. English Level G.

Programme overview
The programme is designed to give you a solid foundation in machine learning and systems and control theory, with applications ranging from autonomous vehicles to data-driven process control. The programme is divided into two tracks: Machine Learning, which focuses on statistical learning, deep learning, and reinforcement learning, and Systems and Control, which covers classical control theory, nonlinear and adaptive control, and signal processing. English Level G.

Programme details, full entry requirements, application steps and selection, visit the programme webpage: www.lunduniversity.lu.se/machine-learning

Master's Programme in Nanoscience

Entry requirements
A Bachelor's degree in science or engineering. Completed courses in mathematics, calculus, linear algebra and probability theory at least 40 credits/ECTS in physics and 30 credits/ECTS in mathematics, covering quantum mechanics, solid-state physics, multi-dimensional calculus, linear algebra and Fourier analysis. English Level G.

Programme overview
The programme is designed to give you a solid foundation in nanoscience and nanotechnology, with applications ranging from materials science to biology. The programme is divided into two tracks: Materials Science and Nanotechnology, which focuses on materials science and nanotechnology, and Life Sciences and Nanotechnology, which covers nanoscience and nanotechnology in the context of biology. English Level G.

Programme details, full entry requirements, application steps and selection, visit the programme webpage: www.lunduniversity.lu.se/nanoscience

Master's Programme in Pharmaceutical Technology: Development, Discovery and Production

Entry requirements
A Bachelor's degree in chemical engineering, biotechnology, chemistry, medical chemistry or equivalent. Completed courses in mathematics, calculus, linear algebra and probability theory at least 40 credits/ECTS in physics and 30 credits/ECTS in mathematics, covering quantum mechanics, solid-state physics, multi-dimensional calculus, linear algebra and Fourier analysis. English Level G.

Programme overview
The programme is designed to give you a solid foundation in pharmaceutical technology, with applications ranging from drug discovery to production. The programme is divided into two tracks: Development and Discovery, which focuses on drug discovery and development, and Production and Manufacturing, which covers the production of active substances. English Level G.

Programme details, full entry requirements, application steps and selection, visit the programme webpage: www.lunduniversity.lu.se/pharmaceutical-technology

Master's Programme in Photonics

Entry requirements
A Bachelor's degree in science or engineering. Completed courses in mathematics, calculus, linear algebra and probability theory at least 40 credits/ECTS in physics and 30 credits/ECTS in mathematics, covering quantum mechanics, solid-state physics, multi-dimensional calculus, linear algebra and Fourier analysis. English Level G.

Programme overview
The programme is designed to give you a solid foundation in photonics, with applications ranging from telecommunications to medical imaging. The programme is divided into two tracks: Fundamental Photonics, which focuses on the fundamentals of photonics, and Applied Photonics, which covers the application of photonics in various fields. English Level G.

Programme details, full entry requirements, application steps and selection, visit the programme webpage: www.lunduniversity.lu.se/photronics

Master's Programme in Production, Markets and Materials Engineering

Entry requirements
A Bachelor's degree in mechanical engineering, industrial engineering or equivalent. Completed courses in mathematics, calculus, linear algebra and probability theory at least 20 credits/ECTS, one course in manufacturing engineering and/or production technology and one course in engineering materials. English Level G.

Programme overview
The programme covers the entire production engineering, the manufacturing process and industrial automation. It provides students with the knowledge and skills necessary to be successful in this field. The programme is divided into two tracks: Production Engineering, which focuses on the design and management of production systems, and Industrial Automation, which covers the design and implementation of industrial automation systems. English Level G.

Programme details, full entry requirements, application steps and selection, visit the programme webpage: www.lunduniversity.lu.se/manufacturing-materials-engineering

Master's Programme in Sustainable Energy Engineering

Entry requirements
A Bachelor's degree in computer science, computer engineering, or equivalent. Completed courses in mathematics, calculus, linear algebra and probability theory at least 20 credits/ECTS, one course in manufacturing engineering and/or production technology and one course in engineering materials. English Level G.

Programme overview
The programme is designed to give you a solid foundation in sustainable energy engineering, with applications ranging from renewable energy to energy efficiency. The programme is divided into two tracks: Sustainable Energy Systems, which focuses on the design and implementation of sustainable energy systems, and Sustainable Energy Management, which covers the management and policy aspects of sustainable energy. English Level G.

Programme details, full entry requirements, application steps and selection, visit the programme webpage: www.lunduniversity.lu.se/sustainable-energy

Master's Programme in Virtual Reality and Augmented Reality

Entry requirements
A Bachelor's degree in computer science, computer engineering, or equivalent. Completed courses in mathematics, calculus, linear algebra and probability theory at least 20 credits/ECTS, one course in manufacturing engineering and/or production technology and one course in engineering materials. English Level G.

Programme overview
The programme is designed to give you a solid foundation in virtual reality and augmented reality, with applications ranging from gaming to advertising. The programme is divided into two tracks: Virtual Reality, which focuses on the design and implementation of virtual reality systems, and Augmented Reality, which covers the design and implementation of augmented reality systems. English Level G.

Programme details, full entry requirements, application steps and selection, visit the programme webpage: www.lunduniversity.lu.se/virtual-reality

Master's Programme in Water Resources Engineering

Entry requirements
A Bachelor's degree in civil engineering, environmental engineering or equivalent. Completed courses in mathematics, calculus, linear algebra and probability theory at least 20 credits/ECTS, one course in manufacturing engineering and/or production technology and one course in engineering materials. English Level G.

Programme overview
The programme is designed to give you a solid foundation in water resources engineering, with applications ranging from water supply to wastewater treatment. The programme is divided into two tracks: Water Supply, which focuses on the design and implementation of water supply systems, and Wastewater Treatment, which covers the design and implementation of wastewater treatment systems. English Level G.

Programme details, full entry requirements, application steps and selection, visit the programme webpage: www.lunduniversity.lu.se/water-resources

Master's Programme in Wireless Communication

Entry requirements
A Bachelor's degree in electrical engineering, computer engineering, information technology or equivalent. Completed courses in mathematics, calculus, linear algebra and probability theory at least 20 credits/ECTS, one course in manufacturing engineering and/or production technology and one course in engineering materials. English Level G.

Programme overview
The programme is designed to give you a solid foundation in wireless communication, with applications ranging from mobile networks to satellite communications. The programme is divided into two tracks: Wireless Networks, which focuses on the design and implementation of wireless networks, and Wireless Systems, which covers the design and implementation of wireless systems. English Level G.

Programme details, full entry requirements, application steps and selection, visit the programme webpage: www.lunduniversity.lu.se/wireless

Programme overview
This programme is designed to give you a solid foundation in wireless communication, with applications ranging from mobile networks to satellite communications. The programme is divided into two tracks: Wireless Networks, which focuses on the design and implementation of wireless networks, and Wireless Systems, which covers the design and implementation of wireless systems. Environmental & Sustainability

Master’s Programme in Environmental Management and Policy

Entry requirements
An undergraduate degree (BA/BSc) of at least 180 credits or equivalent foreign degree from an internationally recognised university. English Level 6.

LUCSUS
Lund University Centre for Sustainability Studies (LUCSUS) is a world class sustainability centre for research, teaching and impact where we work to understand, explain, and catalyse social change and transformations in relation to material limits in the biosphere. We offer a 2-year international Master’s programme in Environmental Studies and Sustainability Science (LUMES) that equips change agents with tools for solving complex sustainability challenges.

Entry requirements
- Master of Science in Environmental Management and Policy • 2 years, full-time, 120 ECTS credits
- The International Institute for Industrial Environmental Economics (IIIEE) • Lund campus
- Tuition fee SEK 150 000 per year for non-EU/EEA citizens. No fee for EU/EEA citizens

Programme overview
How can we assess environmental problems? How do companies and public authorities work to prevent and solve environmental problems? How can different types of actors influence and control, and what policies and measures can we employ to drive positive change? If you are interested in questions like these, this programme is for you.

The International Master’s Programme in Environmental Management and Policy (ZEMP) enables graduates to inspire and drive change by developing their abilities to evaluate, design and implement policy and management responses to complex environmental challenges. Distinguished key features are: interdisciplinary learning, the international nature and practically applied studies, with dual focus on environmental policy and environmental management.

For programme details, full entry requirements, application steps and selection, visit the programme web-page: www.lunduniversity.lu.se/emp

Fine & Performing Arts

Malmö Academy of Music

Entry requirements
- Bachelor of Fine Arts in Visual Arts or an equivalent
- Tuition fee SEK 200 000 per year for non-EU/EEA citizens. No fee for EU/EEA citizens

Programme overview
The Master of Fine Arts is a two-year programme offering specialised artistic training through individual studio practice and courses in art and various related disciplines. Students choose from a range of technical and theoretical areas of study, many of which are taught by internationally recognised artists. The programme also includes a study trip and a degree project, which consists of an essay and a solo exhibition at the academy’s gallery. On completion of the programme, students will have acquired broad and specialised practical and theoretical knowledge and skills for independent work in a variety of professional roles.

For programme details, full entry requirements, application steps and selection, visit the programme web-page: www.khm.lu.se/en/

Master’s Programme in Fine Arts

Entry requirements
- Bachelor of Fine Arts in Visual Arts or equivalent. English Level 6
- Master of Fine Arts in Visual Arts • 2 years, full-time, 120 ECTS credits
- Malmö Academy of Music • Malmö campus
- Tuition fee SEK 200 000 per year for non-EU/EEA citizens. No fee for EU/EEA citizens

Programme overview
The Faculty of Fine and Performing Arts is located in the city of Malmö and consists of Malmö Art Academy, Malmö Academy of Music and Malmö Theatre Academy.

MALMÖ ART ACADEMY

Malmö Art Academy recently moved to new premises that have well-equipped workshops for wood, metal, plastic, clay and lens-based media, film, video digital and analogue photography, digital image processing, 3D printing and animation. The premises offer large project studios as well as private studios for the students, a library and lecture and study rooms.

For programme details, full entry requirements, application steps and selection, visit the programme web-page: www.lunduniversity.lu.se/environmental-studies

Fine & Performing Arts

Malmö Academy of Music

At the Malmö Academy of Music, all students have access to a large number of practice studios and various instrument and genre groups of students also have access to teaching studios. Both academies have strong international profiles. Exchanges and interactions with students and academic staff from other universities and art academies around the world are important. Applicants undergo an extensive admission process. In order to be admitted, both skills, talent and motivation are required. As a successful candidate, you can expect a unique opportunity to do what you are passionate about in a stimulating environment. Many of the former students at Malmö Art Academy and the Malmö Academy of Music are now established artists with international careers.

Humanities

HUMANITIES AND THEOLOGY
Subjects in the humanities and theology focus on human beings and culture. Studies with us open up opportunities for lifelong learning in the art of communicating at different levels, in different cultures and in different ways. Our studies pose questions such as: “which is the best of all possible worlds?”, “are all people of equal value?” or “what does it mean to master a language?”. By studying subjects in the humanities and theology, we learn more about contemporary humans and their challenges; we understand better how we function and interact with our surroundings. There is a number of subjects for international Master's students to study within humanities and theology, such as major and minor languages, literature studies, cultural studies, area studies, archaeology, religion, film and media studies, and human rights studies.

The humanities and theology disciplines do more than merely enabling you to see the individual in a larger context. Studies in these faculties also contribute to the highest degree to increased understanding of the international environments which you are most likely to encounter in your future professional life.

Programme overview
In the Master’s Programme in Applied Cultural Analysis, students are trained in ethnographical fieldwork and cultural analysis. Students learn how to use these theoretical and methodological skills as a means of supporting organisations and businesses as well as municipal and community-based actors to develop their services, products and public outreach programmes. Students also gain advanced understanding of how to interpret, handle and approach different cultural contexts, and perspectives on project management and communication. The programmes works in close cooperation with clients from both the public and private sectors and NGOs. For many students, the programme functions as preparation for and a gateway to PhD-studies.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/applied-cultural-analysis

Master’s Programme in Archaeology and Ancient History: Theory and Practice

Entry requirements
A Bachelor's degree specializing in one of the areas of archaeology, historical archaeology, classical archeology and ancient history, or historical osteology. English Level 6.

Programme overview
This programme is specifically designed to meet the demands within research, field archaeology and cultural heritage management. It combines high scientific and theoretical standards with intensive practical training. You will be taught how to excavate and document the past, how to apply the latest digital technologies for documentation and visualisation, how to analyse artefacts and other archaeological materials, how to analyse buildings and landscapes, and how to communicate your findings and research results to a wider audience. We offer Sweden’s only international MA programme in archaeology and ancient history, as well as a rich, multidisciplinary teaching and research environment.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/archaeology

Master’s Programme in European Studies

Entry requirements
A Bachelor's degree in the humanities or social sciences, or the equivalent. English Level 6.

Programme overview
The Master of Arts Programme in European Studies is an interdisciplinary Master’s programme with a unique perspective on Europe. The programme specifically targets those who are interested in understanding Europe from a broader, humanist point of view and who want to apply this perspective in careers related to European cultural and identity politics and Europe-wide communication. Our focus lies on culture, identity and communication, addressed with both theoretical exploration and career pragmatism. Thus, our programme offers a solid theoretical foundation for the study of European culture and identity and develops students’ practical skills through a project management course and the possibility of internships.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/european-studies

Scan the QR-code to reach the Humanities programme pages at the Lund University website.
Master’s Programme in Film and Media History

Entry requirements
A Bachelor’s degree of 180 credits in film studies or media history or the equivalent, for example a degree in history specialising in media studies. The degree must include an independent project, such as a Bachelor’s degree project, or the equivalent. English Level 6.

Programme overview
The programme offers interdisciplinary specialisation for students within film and media studies. The media are placed in a historical and therefore social, cultural and political context. The processes of change within the media landscape are also studied from economic, technical and aesthetic perspectives. The aim is to prepare students for research and for professions within different types of film and media activities: publishing houses, journalism, media companies, media archives, media education and communication. The MA in Film and Media History is a two-year programme including an opportunity to complete the programme after two semesters with a one-year Master’s degree.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/film-and-media-history

Master’s Programme in Human Rights Studies

Entry requirements
A Bachelor’s degree with a major in human rights or other relevant major in the humanities, social sciences, law, or the equivalent. Applicants with a degree in another subject than human rights studies need to show sufficient knowledge in the field through specialisation, courses, or thesis. English Level 6.

Programme overview
The Bachelor’s degree within the field of human rights is based on the analytical concepts of the social sciences, law, and cultural history. The student will acquire the knowledge and skills to address the main challenges of sustainable development and human rights in a global context.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/human-rights-studies

Master’s Programme in Language and Linguistics

(specialisations)

Entry requirements
A Bachelor’s degree with a major in human rights or other relevant major in the humanities, social sciences, law, or the equivalent. Applicants with a degree in another subject than human rights studies need to show sufficient knowledge in the field through specialisation, courses, or thesis. English Level 6. Please note that for the specialisation in English Linguistics, English language proficiency demonstrated by an average result of 7.5 in IELTS tests (Academic), with no section scoring below 7.0, is required. No exceptions are made.

Programme overview
The Master’s programme in the interdisciplinary field of human rights, with a profile within the humanities, combines historical, philosophical, political and legal perspectives on the complex phenomena that human rights represent in our world. Our teaching faculty reflects the academic width of the Master’s programme. We are committed to the view that human rights need to be regarded and studied not only as ethical principles or grounds for law and policy, but also as part of the infrastructure of a democratic society. Students have the opportunity to complete an internship, field work, or study abroad as part of their studies.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/human-rights-studies

Master’s Programme in Literature—Culture—Media

(specialisations)

Entry requirements
A Bachelor’s degree in the specialisation chosen, including 90 credits in the subject; English Level 6. Please note that for the specialisation in English Literature, English language proficiency demonstrated by an average result of 7.5 in IELTS tests (Academic), with no section scoring below 7.0, is required. No exceptions are made. The specialisation in Scandinavian Studies and the General programme require proficiency in Danish, Norwegian or Swedish.

Programme overview
The aim of this Master’s programme is to strengthen the student’s historical knowledge and theoretical understanding of the relations between literature, culture and modern media. Consequently, the literary text is studied from an intercultural and interdisciplinary perspective. The student can choose between a specialisation in English, French, German, Russian, Spanish, or Yiddish literature, and Scandinavian studies. The tuition consists of compulsory courses taught in English and individually selected courses taught within the various language orientations. The programme prepares students for further studies or for a professional career related to the field of literature, culture, and media.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/literature-culture-media

Master’s Programme in The Religious Roots of Europe

Entry requirements
A Bachelor’s degree with a major in theology, the study of religion, classical philology, classical archaeology, history or the equivalent. A minimum of 15 ECTS credits in either on or two of the following ancient languages: Greek, Latin, Hebrew or Arabic (an exemption can be applied if someone does not meet these standards fully). English Level 6.

Programme overview
The Religious Roots of Europe (RRE) is a two-year Master’s programme with a unique, comparative focus on the early, formative history of Judaism, Christianity and Islam, as well as their interactions in both past and present. RRE combines a thorough study of ancient sources with contemporary challenges in an inspirational community of internationally recognised scholars and students from various backgrounds. RRE can be studied either in Lund or from a distance, as long as compact seminars are attended, beginning with an excursion to ancient Rome. The programme can lead to doctoral studies, and gives much needed expertise for government institutions and churches, for example.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/religious-roots-europe

Master’s Programme in Visual Culture

Entry requirements
A Bachelor’s degree in one of the following disciplines is required: art history and visual studies, film studies, museology, design studies, architecture, or the equivalent. English Level 6.

Programme overview
Within this Master’s programme, we study the visual culture of modern and contemporary society. Different visual genres and media are analysed and discussed, such as art, film, news, documentary photo, scientific images and urban environments. We also study technological and social development during modernity as well as cultural and existential aspects of sight and images. After the programme, you will have an in-depth knowledge of visual culture, its theories and analytical methods, and be well-equipped for a continued academic or professional career. You will also have the ability to communicate and critically discuss your knowledge of society in general.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/visual-culture

PhD Student Master’s programme

• Master of Arts or Master of Theology with a major in The Religious Roots of Europe • 2 years, full-time, 120 ECTS credits • Joint programme with the universities of Copenhagen and Oslo • Centre for Theology and Religious Studies • Lund campus • Tuition fee SEK 110 000 per year for non-EU/EEA citizens. No fee for EU/EEA citizens

Programme overview
The Religious Roots of Europe (RRE) is a two-year Master’s programme with a unique, comparative focus on the early, formative history of Judaism, Christianity and Islam, as well as their interactions in both past and present. RRE combines a thorough study of ancient sources with contemporary challenges in an inspirational community of internationally recognised scholars and students from various backgrounds. **Master's Programme in Asian Studies**

**Entry requirements**
A Bachelor's degree in the Social Sciences or Humanities. English Level E6.

**Programme overview**

• Master of Arts in South Asian Studies • 2 years, full-time, 120 ECTS credits
• Centre for East and South-East Asian Studies • Lund campus
• Tuition fee SEK 80 000 per year for non-EU/EEA citizens. No fee for EU/EEA citizens

**Master's Programme in Human Geography – Urban, Economy, Ecology and Landscape**

**Entry requirements**
A Bachelor's degree in human geography or equivalent. English Level 6.

**Programme overview**

- This programme is an interdisciplinary programme focusing on critical social and economic issues in urban contexts. It aims to equip graduates with a broad understanding of the complex interconnections between urban development, environmental sustainability, and social justice. Graduates will acquire the skills necessary to engage with urban planning, environmental policy, and social transformation in urban settings around the world.

**Master's Programme in Cultural Criminology**

**Entry requirements**
A Bachelor's degree in anthropology, sociology, or equivalent. English Level E6.

**Programme overview**

- The programme is designed for students interested in the study of crime and its social, cultural, and political dimensions. It offers a unique opportunity to explore the cultural and symbolic dimensions of criminality, and to understand the ways in which crime is constructed, experienced, and managed across different contexts and historical periods.

**Master's Programme in Development Studies**

**Entry requirements**
A Bachelor's degree with a major in one of the following social sciences disciplines: development studies, gender studies, human geography, political science, social work, anthropology, sociology, and theology, or equivalent. English Level E6.

**Programme overview**

- The programme is an interdisciplinary programme focusing on critical social and economic issues in urban contexts. It aims to equip graduates with a broad understanding of the complex interconnections between urban development, environmental sustainability, and social justice. Graduates will acquire the skills necessary to engage with urban planning, environmental policy, and social transformation in urban settings around the world.

**Master's Programme in Economic Affairs**

**Entry requirements**
A Bachelor's degree in business or economics, or equivalent. English Level E6.

**Programme overview**

- The programme offers a unique combination of courses, covering topics such as European governance, EU regulations, and European affairs. It is designed to provide students with an understanding of the political, economic, and social dynamics of the European Union, and of its role in the global economy.

**Master's Programme in Global Studies**

**Entry requirements**
A Bachelor's degree with a major in one of the following social sciences disciplines: development studies, gender studies, human geography, political science, social work, anthropology, sociology, and theology, or equivalent. A major is equivalent to a minimum of 90 ECTS credits or 50% of all degree coursework solely within one social science discipline. English Level 6.

**Programme overview**

- The Master's in Global Studies is an interdisciplinary social science programme that focuses on the study of complex, global issues and challenges facing the world today. It offers a unique opportunity to explore the ways in which globalisation is linked to conflict and social change. Graduates will acquire the skills necessary to engage with global affairs in a range of professional and private research-led careers.

**Master's Programme in Human Ecology – Culture, Power and Sustainability**

**Entry requirements**
At least a Bachelor's degree, including three semesters (90 credits) of studies in human ecology, or another subject of relevance to the programme, e.g. anthropology, sociology, geography, environmental studies, or equivalent. English Level 6.

**Programme overview**

- The programme is an interdisciplinary programme focusing on critical social and economic issues in urban contexts. It aims to equip graduates with a broad understanding of the complex interconnections between urban development, environmental sustainability, and social justice. Graduates will acquire the skills necessary to engage with urban planning, environmental policy, and social transformation in urban settings around the world.

**Master's Programme in Human Ecology – Urban, Economy, Ecology and Landscape**

**Entry requirements**
A Bachelor's degree in human geography or equivalent. English Level 6.

**Programme overview**

- This programme is an interdisciplinary programme focusing on critical social and economic issues in urban contexts. It aims to equip graduates with a broad understanding of the complex interconnections between urban development, environmental sustainability, and social justice. Graduates will acquire the skills necessary to engage with urban planning, environmental policy, and social transformation in urban settings around the world.

**Master's Programme in International Development and Management**

**Entry requirements**
A Bachelor's degree. English Level E6.

**Programme overview**

- This programme is an interdisciplinary programme focusing on international development and management. The programme offers a unique combination of theoretical knowledge, applied research methods and management skills pertaining to a range of current development areas. Students will engage with development agencies within the UN and in various NGOs, and in the private sector.

**Master's Programme in Media and Communication Studies**

**Entry requirements**
A Bachelor's degree in media, communication, cultural studies, or equivalent in social sciences or humanities disciplines. English Level 6.

**Programme overview**

- The programme offers a unique combination of courses, covering topics such as European governance, EU regulations, and European affairs. It is designed to provide students with an understanding of the political, economic, and social dynamics of the European Union, and of its role in the global economy.
For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/middle-eastern-studies
**Law**

**Master’s Programme in International Human Rights Law**

**Entry requirements**
At least a three-year Bachelor's degree in law (LL.B or equivalent). English Level 6.

**Programme overview**
For 30 years, the Master of Laws in International Human Rights Law has been offered by the Faculty of Law. It is a cooperative venture by the Faculty of Law and the Raoul Wallenberg Institute of Human Rights and Humanitarian Law (RWI). This makes your education unique: no other LL.M programme offers the joint resources of a prestigious law school and an implementation-oriented human rights institution. The Master of Laws in International Human Rights Law is one of the first LL.M programmes established specifically to provide for the academic mastery of an increasingly complex area: the international law of human rights and humanitarian law.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/human-rights-law

---

**Master’s Programme in European Business Law**

**Entry requirements**
At least a three-year Bachelor’s degree in law (LL.B or equivalent). English Level 6.

**Programme overview**
Scandinavia’s oldest programme in European economic law at Scandinavia’s best ranked law faculty provides an in-depth understanding of the practical and theoretical aspects of European law. It offers an excellent foundation in the EU constitutional framework and in the workings of the most important rules governing how businesses operate in Europe. The programme is taught by expert teachers from Lund University, supported by leading academics from other top-ranked universities, and with input from senior practitioners in key EU institutions, national authorities and leading law firms. With the optional second year, students have extensive possibilities to tailor their studies to suit their interests and future career ambitions.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/european-business-law

---

**Master’s Programme in Sociology**

**Entry requirements**
A Bachelor’s degree in sociology or equivalent. English Level 6.

**Programme overview**
The Master’s programme in Sociology prepares students for PhD studies in sociology as well as for advanced professional work in sociological inquiries and community planning. The programme allows students considerable freedom to select courses according to interest and future needs. The programme enables students to develop critical thinking, analytical skills and the ability to conduct sociological analysis, as well as to acquire specialized knowledge of sociology. On completion of the programme, students are awarded a degree of Master of Science (120 credits) specializing in sociology.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/sociology

---

**Master’s Programme in Strategic Communication**

**Entry requirements**
To be admitted to the programme, students must have a Bachelor's degree in social sciences, humanities or economics and management including 90 credits in strategic communication, media and communication studies, journalism, marketing, organisation studies or the equivalent. A good command of the English language, both spoken and written, is required to meet English Level 6.

**Programme overview**
The MSc in Strategic Communication is a two-year interdisciplinary Master’s programme. The programme provides theory, concepts and skills to operate and successfully work with strategic communication in international environments. You will learn how communication is central for organisations of various kinds and how communication can be understood and used to achieve strategic goals and to ensure sustainable organisations. The programme provides students with an understanding of strategic communication and the closely related fields of organisational communication, public relations and brand communication. On completion of the programme, our graduates have the necessary skills for a career in communication as well as for research.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/strategic-communication

---

**Master’s Programme in Tourism and Development Culture**

**Entry requirements**
Undergraduates with a minimum 2.1 Honour’s degree or equivalent (e.g. a Grade Point Average of 75%) in the following subject areas: social sciences or humanities, or management and business.

Find out more about entry requirements, scholarship requirements and other country-specific information at www.gla.ac.uk/international/

**Programme overview**
This two-year Erasmus Mundus Joint Master Degree (EMJMD) programme provides an excellent opportunity for students to study law, legal institutions and legal behaviour in a social context. It offers an advanced overview of sociology of law with the possibility of specialisation in socio-legal areas, such as criminal justice and social control, criminology, society and corruption, human rights, law and digitialised governance. The objective of the programme is to increase the students’ knowledge of how the law and legal institutions work at the national and transnational levels and how they impact the everyday life of ordinary citizens.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu/se/tourismdevelopmentculture

---

**Master’s Programme in Welfare Policies and Management**

**Entry requirements**
A Bachelor’s degree with a major in political science, or social work, or sociology. English Level 6.

**Programme overview**
With a unique combination of perspectives from political science, social work, sociology and economics, this programme provides you with a broad range of knowledge and skills intended for the management and administration of welfare services. The courses are based on a comparative approach, highlighting of Herzenus and similarities across countries, administrative levels and policy areas, including a European Union perspective. In addition to being active researchers in their own field of expertise, our teachers have undergone educational training and make use of modern teaching and assessment techniques. We also bring practitioners into our courses and make visits to different types of agencies involved in the production of welfare services.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu/se/welfare-policies-management

---

**THE FACULTY OF LAW**

The Faculty of Law aspires to expand and maintain its role as an international player in legal scholarship, second to none in a growing number of areas. Our legal education is based on strong research traditions and close links to different parts of the legal community in Sweden and beyond. Our graduates find career opportunities in an increasing variety of legal professions worldwide, including national and international legal institutions, NGOs, academia and the private sector. Our Master’s students have consistently excelled over the years and this has paved their way to attractive career options. Student teams from Lund University’s Master’s programmes have successfully competed at International moot court competitions and won prestigious prizes on several occasions.

The Faculty of Law also offers MOOCs in European Business Law. These courses are online, free and open to anyone with an interest in the subject area. Read more and join the MOOCs at www.coursera.org/lunduniversity
THE FACULTY OF MEDICINE

Investing in your future, deepening your knowledge, being prepared for a PhD education and obtaining an internationally acknowledged degree are just some of the reasons to join one of the four international programmes within Medicine and Health. Research at the Faculty of Medicine covers a broad field, from basic experimental research to research in healthcare, medical science and clinical, point-of-care research. We are considered global leaders in several fields, for example neuroscience and diseases of the nervous system, diabetes, cardiovascular diseases, cancer, stem cell biology, infectious diseases, epidemiology, healthy ageing, biomaging and mass spectrometry. We also make the most of the broad research expertise available within our full-scale university. Many research projects bring together clinicians, biologists, engineers, social scientists, chemists, economists, behavioural scientists, ethicists and humanists to solve complex social problems. The Faculty of Medicine uses student-centred learning based on current research to prepare you for your future career. An informal atmosphere characterises the learning environment and you work with authentic cases.

Master’s Programme in Biomedicine

Entry requirements
A Bachelor’s degree of at least 180 credits in biomeditics, microbiology, human physiology and molecular medicine, including an independent biomedical thesis of midwifery. English Level 6.

Programme overview
Our goal is to give students leading competences in biomedical research so that they are well-prepared for independent work in medical research and development. The programme leads to a Master of Medical Science, with a major in Biomedicine. Teaching takes place in a research environment at the Biomedical Research Centre in Lund and all teachers are also active researchers.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/biomedicine

Master’s Programme in Medical Science

Entry requirements
A Bachelor’s degree of 180 credits or equivalent within the fields of audiology, nursing, occupational therapy, physiotherapy, radiography, speech and language pathology or reproductive, perinatal and sexual health (midwifery). English Level 6.

Programme overview
This cutting-edge programme prepares you for research and innovation in an interprofessional and research-intensive academic context. The programme aims at developing and preparing you for advanced work, leadership and innovation within public and private health care practice. During your studies, you will build the capacity required to work in a global health care and research context, through student-centred teaching and learning activities. All teachers are active and leading researchers. The programme is structured, with each course building upon the previous. Electives are available. All courses include both classroom and online elements.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/medical-science

Master’s Programme in Public Health

Entry requirements
A Bachelor’s degree of 180 ECTS credits or equivalent. English Level 6.

Programme overview
This is a cross-disciplinary programme with a global perspective. It provides students with evidence-based knowledge and a skill set for conducting research, policy-making and field work. The faculty has substantial experience from a range of disciplinary and geographical contexts and the diversity of the student body contributes to a stimulating learning environment. As one student expressed it: “The class and teaching are a microcosm of the global context we’ll face in our life”. Alumni are currently employed at a variety of institutions such as national health ministries, UNICEF, the WHO and various NGOs. In addition, many are researchers at top-ranked universities.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/public-health

INTERNERSHIPS

Did you know that an internship in Sweden or abroad is included within several of our programmes or can be included as an elective course? Former students have interned at:

- Master’s in Biomedicine
  - H. Lundbeck A/S
  - Karolinska Institute, Stockholm
  - Trinity College, Dublin
  - University of Copenhagen
  - University of California, Davis
  - Novo Nordisk A/S

- Master’s in Public Health
  - UNFPA in Copenhagen
  - WHO in Geneva
  - New Zealand Centre for Sustainable Cities
  - Ghana Health Service
  - Region Skåne Hospitals & Public Health Unit
  - Lund University Diabetes Centre

AFTER GRADUATION

Several alumni choose an academic career, pursuing their PhD or working as research fellows. This applies to at least 75% of the Biomedicine alumni. A recent alumni survey among Public Health students, roughly 2/3 of respondents were employed within the field of Public Health one year after graduation. The majority of the students graduating from the Master’s in Medical Science Programme work in the health care services sector.

Where are our graduates now? Our alumni are currently working at:

- Master’s in Biomedicine
  - universities
  - Life Science companies

- Master’s in Public Health
  - UN organisations, such as WHO
  - national ministries of health
  - NGOs in the public health sector
  - health services
  - consulting agencies

- Master’s in Medical Sciences
  - health care services
  - universities
  - consulting agencies
  - medical technology companies
Master’s Programme in Biology, Aquatic Ecology

Entry requirements
A Bachelor’s degree of at least 180 credits, of which 90 credits must be in science, including 5 credits in statistics and 60 credits in biology comprising cell biology, genetics, microbiology, ecology, botany and zoology, or the equivalent. English Level C.

Programme overview
This Master’s programme specialises in the ecology of aquatic ecosystems, including both freshwater and marine systems. It provides an understanding of modern theories and models of the structure and function of aquatic ecosystems, effects of anthropogenic disturbances, management strategies and restoration techniques. Practical training in laboratory and field methodology is emphasised, together with observations and experiments that form the basis for developing a hypothesis, planning and doing the research to finally spreading the knowledge in society. There is a wide range of courses to choose from and the professors are readily available to support your learning throughout the programme. The programme leads to public organs or in consulting agencies, but also provides a solid ground for post-graduate studies.

For programme details, full entry requirements, application steps and selection, visit the programme web-page: www.lunduniversity.lu.se/biology-aquatic-ecology
Master's Programme in Molecular Biology, General

Entry requirements
A Bachelor's degree of at least 180 credits or the equivalent, of which at least 15 credits must be in physical chemistry. 15 credits in mathematical statistics are required. English Level 6.

Programme overview
The world will depend more on geological expertise in the future. Concerns about global environmental change mean that our need for geologists is growing, and an increasing number of jobs are becoming available worldwide. Geologists need a broad and international education comprising genetics, cell biology and microbiology. 7.5 credits in human and molecular physiology. 30 credits in chemistry comprising biochemistry. English Level 6.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/molecular-biology

Master's Programme in Molecular Biology, Medical Biology

Entry requirements
A Bachelor's degree of at least 180 credits or the equivalent, of which at least 15 credits must be in science/biomedical engineering, including 45 credits in molecular biology comprising genetics, cell biology and microbiology. 15 credits in human and molecular physiology. 30 credits in chemistry comprising biochemistry. English Level 6.

Programme overview
This programme offers courses that will suit both doctors and early career researchers in modern molecular biology and related topics. It provides you with the opportunity to design your own education with the specialisation that you prefer. There is a broad range of courses available to give you the skills necessary for employment within different areas within industry, academia and the public sector. The programme also provides you with a solid grounding for PhD studies.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/molecular-biology

Master's Programme in Geology

Entry requirements
A Bachelor's degree of at least 180 credits in geology in the equivalent. The degree must include at least 90 credits in mathematics. English Level 6.

Programme overview
The Bachelor's degree in Geology gives you a broad and fundamental knowledge in the fields of physical and theoretical geodynamics and earth sciences. It comprises knowledge and skills within the fields of geology, palaeontology, mineralogy and geochronology. Through a combination of advanced courses and a Master's degree project or projects, you are given the opportunity to specialise in the fields of geology and geophysics. Studies build on a previous grounding in chemistry and enable you to develop the ability to apply independent ideas to problems in chemistry or its neighbouring fields. A Bachelor's degree of at least 180 credits or the equivalent. The degree must include at least 90 credits in mathematics, or at least 45 credits in mathematical statistics at the Master's level and write a Master's thesis of 30 credits. The remaining (at most 45) credits can be used in additional mathematical/statistics courses or, for example, mathematics or numerical analysis courses, as well as in other subjects, for example, computer science, economics, molecular biology and biostatistics. For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/geology

Master's Programme in Geomatics

Entry requirements
A Bachelor's degree of at least 180 credits or the equivalent, including at least 90 credits in chemistry, of which at least 7.5 credits must be in general chemistry, 15 credits in physical chemistry, 15 credits in inorganic chemistry, 22.5 credits in organic chemistry, 15 credits in analytical chemistry. In addition to courses in chemistry, 15 credits in mathematics are required. English Level 6.

Programme overview
For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/geomatics

Master's Programme in Chemistry, Synthetic and Analytical Chemistry

Entry requirements
A Bachelor's degree of at least 180 credits or the equivalent. The degree must include at least 90 credits in mathematics, including at least 15 credits in numerical analysis. English Level 6.

Programme overview
The purpose of the programme is to give you broad and fundamental knowledge in the fields of physical and theoretical chemistry and chemical physics. Students develop advanced laboratory skills, a profound theoretical comprehension of fundamental mechanisms and a good understanding of practical applications. Special emphasis is given to an undergraduate line of understanding, from quantum mechanical description of atoms and molecule to complex supramolecular structures, as well as their industrial and biological applications. For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/chemistry-synthetic-analytical

Master's Programme in Chemistry, Physical Chemistry

Entry requirements
A Bachelor's degree of at least 180 credits or the equivalent, including at least 90 credits in chemistry, of which at least 15 credits must be in general chemistry, 15 credits in physical chemistry, 15 credits in inorganic chemistry, 22.5 credits in organic chemistry, 15 credits in analytical chemistry. In addition to courses in chemistry, 15 credits in mathematics are required. English Level 6.

Programme overview
The programme provides you with the opportunity to acquire an advanced level of theoretical and practical knowledge and skills within the fields of physical, biophysical and coordination chemistry. Through a combination of advanced courses and a Master's degree project or projects, you are given the opportunity to specialise in the fields of physical chemistry and chemical physics. Studies build on a previous grounding in chemistry and enable you to develop the ability to apply independent ideas to problems in chemistry or its neighbouring fields. A Bachelor's degree of at least 180 credits or the equivalent. The degree must include at least 90 credits in mathematics, or at least 45 credits in mathematical statistics at the Master's level and write a Master's thesis of 30 credits. The remaining (at most 45) credits can be used in additional mathematical/statistics courses or, for example, mathematics or numerical analysis courses, as well as in other subjects, for example, computer science, economics, molecular biology and biostatistics. For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/chemistry-physical

Master's Programme in Molecular Biology

Entry requirements
A Bachelor's degree of at least 180 credits or the equivalent, including at least 90 credits in mathematics, in numerical analysis, scientific calculations and computer science, of which at least 45 credits must be in mathematics, including courses in multivariate analysis and linear algebra, at least 30 credits in mathematical statistics and at least 15 credits in computer science. English Level 6.

Programme overview
The purpose of the programme in Molecular Biology is to give students advanced theoretical knowledge of molecular biology together with practical skills to apply this knowledge both to problems in medicine, and in other fields such as biotechnology, agriculture and food industry. To master this programme, students are expected to have completed their education in molecular biology or biotechnology. English Level 6.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/molecular-biology

Master's Programme in Mathematical Statistics

Entry requirements
A Bachelor's degree of at least 180 credits or the equivalent, including at least 90 credits in mathematics, in numerical analysis, scientific calculations and computer science, of which at least 45 credits must be in mathematics, including courses in multivariate analysis and linear algebra, at least 30 credits in mathematical statistics and at least 15 credits in computer science. English Level 6.

Programme overview
Mathematical Statistics provides a broad spectrum of tools and methods for handling random phenomena occurring in scientific as well as industrial contexts. Within the programme, you can specialise in many different fields. Studies build on previous grounding in chemistry and enable you to develop the ability to apply independent ideas to problems in chemistry or its neighbouring fields. A Bachelor's degree of at least 180 credits or the equivalent. The degree must include at least 90 credits in mathematics, or at least 45 credits in mathematical statistics at the Master's level and write a Master's thesis of 30 credits. The remaining (at most 45) credits can be used in additional mathematical/statistics courses or, for example, mathematics or numerical analysis courses, as well as in other subjects, for example, computer science, economics, molecular biology and biostatistics. For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/mathematical-statistics

Master's Programme in Geomatics

Entry requirements
A Bachelor's degree of at least 180 credits or the equivalent, including at least 90 credits in mathematics, in numerical analysis, scientific calculations and computer science, of which at least 45 credits must be in mathematics, including courses in multivariate analysis and linear algebra, at least 30 credits in mathematical statistics and at least 15 credits in computer science. English Level 6.

Programme overview
Geomatics involves the acquisition, management and analysis of phenomena with a spatial reference. Spatial analysis finds applications in many areas, such as health, environment management, natural resources assessment, urban planning, geography, archaeology and agronomy. This programme aims to provide you with knowledge in spatial analysis focusing mainly on environmental applications. Models and theories for understanding the Earth's climate and ecosystems are integrated with knowledge for collecting environmental information using remote sensing, storing the information in databases and theories behind Geographical Information Systems (GIS).

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/geomatics

Master's Programme in Geology

Entry requirements
A Bachelor's degree of at least 180 credits or the equivalent, including at least 90 credits in chemistry, of which at least 15 credits must be in physical chemistry. 15 credits in inorganic chemistry, 22.5 credits in organic chemistry, 15 credits in mathematical statistics are required. English Level 6.

Programme overview
The Bachelor's degree in Geology gives you a broad and fundamental knowledge in the fields of physical and theoretical geodynamics and earth sciences. It comprises knowledge and skills within the fields of geology, palaeontology, mineralogy and geochronology. Through a combination of advanced courses and a Master's degree project or projects, you are given the opportunity to specialise in the fields of geology and geophysics. Studies build on a previous grounding in chemistry and enable you to develop the ability to apply independent ideas to problems in chemistry or its neighbouring fields.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/geology

Nordic Master's Programme in Environmental Changes at Higher Latitudes

Entry requirements
A Bachelor's degree of at least 180 credits in physical geography, physics, or the equivalent, including a minimum of 90 ECTS in studies in natural sciences and technology, with a minimum average grade of at least C on the ECTS grading scale. English Level 6.

Programme overview
This programme presents a multidisciplinary education in environmental sciences of the high latitudes. Due to accelerated changes, there is a need for experts with a multidisciplinary training. The programme is a joint Nordic master's degree in geography with Lund University and the University of Iceland, and students will graduate from two universities. The master program includes one semester in Iceland and students will have access to courses and the other semester in Sweden. The programme comprises English as main language and one seminar per year is taught by four additional ENHI lecturers. The curriculum contains a mandatory mobility period of at least one semester.

For programme details, full entry requirements, application steps and selection, visit the programme web page: www.enchi.net
Master's Programme in Molecular Biology, Microbiology

Entry requirements
A Bachelor's degree of at least 180 credits or the equivalent, of which 120 credits must be in science/biomolecular engineering, including 45 credits in molecular biology comprising genetics, cell biology and microbiology, and 30 credits in chemistry comprising biochemistry. English Level 6.

Programme overview
This programme provides a highly competitive education in modern microbiology. It offers a broad foundation in mathematics and the important skills in microbiology and molecular biology. Knowledge about microbes and their diversity, physiology and genetics, as well as modern tools to study them, are important and highly relevant for work in research in molecular biology, infectious diseases and ecology, for the exploration of microbes, i.e. to produce bulk and fine products, food and pharmaceuticals, and for use in environmental biotechnology. The programme provides a point of entry into many areas, such as postgraduate academic research or a career in industry or the public sector.

Programme details
For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/microbiology

---

Master's Programme in Molecular Biology, Molecular Genetics and Biotechnology

Entry requirements
A Bachelor's degree of at least 180 credits or the equivalent, of which 120 credits must be in science/biomolecular engineering, including 45 credits in molecular biology comprising genetics, cell biology and microbiology, and 30 credits in chemistry comprising biochemistry. English Level 6.

Programme overview
This programme connects fundamental research with its applications and integrates genetics, gene technology, cell biology, molecular biology and molecular biotechnology. The common basis is within molecular genetics, which is the discipline that explains how the information in the genes is expressed and how it can give rise to various traits in an organism. Features that are put on genetic mechanisms underlying disease, genetic mapping, molecular genetics techniques and diagnostic methods. Training in entrepreneurship and processes of innovation and commercialisation in the biotechnological industry. A majority of the graduated students continue with PhD studies, often within the biomedical research field.

Programme details
For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/molecular-genetics-biotechnology

---

Master's Programme in Physical Geography and Ecosystem Science

Entry requirements
A Bachelor's degree of at least 180 credits in physical geography, geology, geosciences, biogeography, physics, agronomy, forest science, environmental science, or the equivalent. English Level 6.

Programme overview
This programme enables you to gain theoretical knowledge and practical skills to solve complex issues within the areas of environmental sciences, physical geography and climate change. You will learn methods and techniques for measurements and collecting data. You will also gather substantial experience using different tools and methods commonly used by professionals for analysis of environmental data, together with skills for presenting and communicating results and conclusions for different audiences. After successfully completing the programme, you will have an expertise within a number of different fields, such as climate and water issues, nature conservation and international development, and work with issues relating to assessment, analysis, management and development of the environment and natural resources in a long-term sustainable perspective. Naturally, you could also pursue a career in research.

Programme details
For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/physical-geography

---

Master's Programme in Physics, Biological Physics and Computational Biology

Entry requirements
A Bachelor's degree of at least 180 credits in physics or the equivalent. The degree must include at least 90 credits in physics. English Level 6.

Programme overview
Biology poses many questions of a cross-disciplinary and quantitative nature, requiring an understanding of the physics of living things. Examples include how proteins fold and interact and how cells divide and communicate. Physics, the theoretical physics, such as machine learning, modelling and simulation, form an invaluable toolbox for approaching these problems. The Department of Astronomy and Theoretical Physics offers a physics programme with specialisation in biological physics and computational biology. As a Master's student, you will become part of a vibrant research community at the Computational Biology and Biological Physics division, engaged in cutting-edge theoretical studies of biological problems.

Programme details
For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/biological-physics

---

Master's Programme in Physics, General

Entry requirements
A Bachelor's degree of at least 180 credits in physics or the equivalent. The degree must include at least 90 credits in physics. English Level 6.

Programme overview
What is satisfying your curiosity could become your job! At the Department of Physics in Lund, you can pursue your creative and at the same time make a strategic choice for your career. Physics is studied by both students including the smallest parts of matter, the interface between living cells and electronics, to how to create a cleaner environment and how to cure cancer. At the same time, they are satisfying their curiosity. As a student and you will become part of a vibrant research community engaged in experiments at major international research facilities in the European community and in-state-of-the-art laboratories on site. Cutting-edge theoretical studies are also undertaken.

Programme details
For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/physics

---

Master's Programme in Physics, Materials Science

Entry requirements
A Bachelor's degree of at least 180 credits in physics or the equivalent. The degree must include at least 90 credits in physics. English Level 6.

Programme overview
Materials science is inherently multidisciplinary and often relies on both theoretical modelling and experimental characterization. Lund has two of the world's largest-scale facilities for materials science research: the world's first fourth-generation synchrotron radiation source, the MAX IV Laboratory, which started operation in 2016, and the European Spallation Source (ESS) for neutron-based research which is currently under construction (opens in 2023). Education in the Master's programme in Physics, Materials Science is strongly linked to research at these two infrastructures. You will learn how to study important properties of materials by spectroscopy, diffraction and microscopy. The Master's programme is flexible and interdisciplinary, and it is possible to combine theoretical or computational studies with experimental approaches.

Programme details
For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/physics-materials

---

Master's Programme in Physics, Particle Physics

Entry requirements
A Bachelor's degree of at least 180 credits in physics or the equivalent. The degree must include at least 90 credits in physics. English Level 6.

Programme overview
Particle physics addresses the fundamental principles governing our world forces and constituents. Today, our understanding is described by the Standard Model theory, which has an exceptional predictive power, but is incomplete. We explore the predictions of the Standard Model and seek a more complete understanding. These experiments are mainly done at the LHC collider at CERN where we are involved in the ATLAS and ALICE experiments. ATLAS searches for new physics, whereas ALICE studies the quark-gluon plasma. As a Master's student in particle physics, you will take an active part in analysing the data recorded by the experiments.

Programme details
For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/particle-physics

---

Master's Programme in Physics, Theoretical Physics

Entry requirements
A Bachelor's degree of at least 180 credits in physics or the equivalent. The degree must include at least 90 credits in physics. English Level 6.

Programme overview
Do you want to understand the inner workings of nature from a theoretical viewpoint? At the Department of Astronomy and Theoretical Physics, together with the Department of Physics in Lund, we offer a broad programme covering a wide range of topics in theoretical and mathematical physics. You can choose to study the smallest constituents of matter and their interactions with theoretical high-energy physics, as well as nuclear and solid state physics within mathematical physics. In all cases, you will get a solid basis of theoretical knowledge needed to develop new models and to better understand how nature works.

Programme details
For programme details, full entry requirements, application steps and selection, visit the programme web page: www.lunduniversity.lu.se/theoretical-physics
Application steps - degree studies

Lund University uses a national application system. Applications are made online and documents are submitted to University Admissions in Sweden. The main application period for international students applying for studies starting in autumn (August/September) is from mid-October to 15 January*.

1. Find your programme and check requirements
   Find your programme at www.lunduniversity.lu.se/programmes and check that you meet the entry requirements. Also check for any relevant country-specific requirements at www.universityadmissions.se.

2. Select and rank your programme choices
   Create an account at www.universityadmissions.se. Choose your programmes, rank them in order of preference and submit your selection through the online system before the application deadline.

3. Submit supporting documents
   Check document rules:
   - In general, the following documents are required:
     - Official transcripts and high school diploma (if applying for Bachelor’s studies)
     - Official transcripts and degree certificate or proof of expected graduation if you are a final year Bachelor’s student (if applying for Master’s studies)
     - Passport/ID
     - Proof of English proficiency (all applicants)
     - Programme-specific documents (if required by the programmes you are applying to – check at www.lunduniversity.lu.se/programmes)

4. Pay application fee or prove exemption
   Non-EU/EEA students are required to pay an application fee of SEK 900 (approx. € 85, USD 93) to University Admissions in Sweden. If you are an EU/EEA student, you must instead submit proof of your citizenship in order for your application to be processed.

Admission results are announced in April!

Please see www.lunduniversity.lu.se/apply for updates.

*OTHER APPLICATION PERIODS: It is also possible to apply between 1 June and 15 August for studies starting in spring (January), but please note that only a few programmes and courses open in this round, as most studies start in the autumn. A limited number of courses and programmes starting in autumn also open in the Swedish student application round 15 March to 15 August. If you are an EU/EEA citizen or already have a residence permit in Sweden, you may be able to apply in this application round. It is not possible to apply outside of the application rounds.

Entry requirements and proof of English

GENERAL ENTRY REQUIREMENTS
To meet the general entry requirements for Bachelor’s level studies, you must:
- have successfully completed upper secondary education (post-16)
- be able to demonstrate proficiency in English, see below

COUNTRY-SPECIFIC REQUIREMENTS
Depending on the country where you have previously studied, there are different rules and requirements to prove you are eligible for studies in Sweden. Check if there are any rules that you need to be aware of before applying at www.universityadmissions.se

ENGLISH LANGUAGE REQUIREMENTS
All applicants need to prove their English proficiency when applying to study at Lund University. Your proof of English must be received by the deadline for the application round.

Most programmes require advanced English proficiency, called English Level 6. There are several ways to prove your English proficiency including:
- IELTS (Academic) total score of 6.5 (with no section less than 5.5)
- TOEFL total score of 90 and a score of at least 20 (scale 0–30) in the written test
- Transcripts/diplomas of upper secondary school studies or previous university studies which meet the requirements according to the specific instructions at www.universityadmissions.se
- Please note that some programmes have higher English requirements – check the entry requirements of the programme you are interested in

For the full list of accepted tests and other ways to prove your English proficiency, see www.universityadmissions.se

Preparatory English and study skills

Academically talented students who are looking to apply to engineering or science Master’s programmes at Lund University have the opportunity to prepare for their studies through the Pre-Master’s Preparation Programme.

The Pre-Master’s Preparation Programme, offered by ONCAMPUS Lund Sweden, a part of Cambridge Education Group, is a comprehensive academic and English language programme with up to 26 hours a week of class time.

Programme contents:
- English language studies – academic writing skills, academic reading skills, presentation and discussion skills, listening and note taking, as well as English for specific purposes
- Introduction to studying in Sweden
- Academic studies for the chosen degree
- Research methods, data analysis and project planning
- Research project preparation
- Assistance in applying to your Master’s programme
- Prepare you for your Master’s degree studies

For information on possible progression degrees, fees, requirements and the application process, please refer to www.oncampus.global/europe/oncampus-lund-sweden or email admissions@oncampus.global

Which option is right for you?
- THREE TERMS, START IN SEPTEMBER (REQUIRES IELTS 6.5)
- TWO AND A HALF TERMS, START IN NOVEMBER (REQUIRES IELTS 6.0)
Tuition fees, living costs and funding

Tuition fees
Programme tuition fees can be found on the programme pages 18–49. Tuition fees do not apply for students who are citizens of the EU/EEA or Switzerland. There are also some exemptions for students who have a Swedish residence permit for reasons other than studies. There are no fees for exchange students. For full information about tuition fee exemptions, please see www.universityadmissions.se

Students who are citizens of countries outside the EU, EEA and Switzerland are generally required to pay application and tuition fees.

Tuition Fee Payment
Lund University issues an invoice in advance of each semester of study, with payment due before the start of the semester. The invoice and payment are accessed through a secure student portal. You can make your payment online by credit or debit card (Visa, Mastercard). The amount will be withdrawn from your bank account immediately. You can also transfer the money to our account number.

Currency Guide
This approximate guide is for comparison purposes only. Please check daily currency rates.

Living Costs
A typical student budget to cover food, housing, clothing, books/materials and leisure time is around SEK 9,000/month of study (approximately € 850 or USD 1,040):
- Food SEK 2,300
- Accommodation SEK 3,200–5,000
- Course literature SEK 400–1,000
- Other: clothing, telephone, leisure, etc. SEK 1,500

You are required to have the following amount to cover living costs, as per the residence permit rules of the Swedish Migration Agency (per calendar year):

<table>
<thead>
<tr>
<th>Swedish Krona (SEK)</th>
<th>Euro (€)</th>
<th>US dollar (USD)</th>
</tr>
</thead>
<tbody>
<tr>
<td>732 108</td>
<td>8,474</td>
<td>10,400</td>
</tr>
</tbody>
</table>

Getting Around/Public Transportation
Most students bike or walk and do not require public transport. For students who commute, there is a 25% discount off standard fares for bus and trains. A monthly card and an app are available for students commuting in the region. Costs will vary depending on the distance, but will be between SEK 638–899 (USD 63–83) € 60–85 per month.

US Student Loans
Lund University is a participating institute in the US Department of Education’s federal student aid, the Direct Loan Program (Title IV loans) for Bachelor’s and Master’s programmes. This loan programme is only available to US citizens or eligible non-citizens. Master’s degree students can have the entire cost of attendance covered by these loans. Please use the Lund University school code G10067 when completing the FAFSA application. Learn more about federal student aid on www.studentaid.gov.

Canada Student Loans
Lund University is registered with the Canadian tax authorities and accordingly we accept students with Canadian loan schemes. For more information, please contact the Student Finance Administrator at Lund University: studiefinan@er.lu.se

Funding for Students from Mexico
Mexican students admitted to Master’s degree programmes at Lund University and who also receive funding from the Mexican Government’s Fund for Human Resource Development (FIOERH) are eligible for a partial scholarship. The eligible fields of study are: humanities, health, social sciences, business, natural sciences, agriculture, engineering and technology. For more information, please contact the Student Finance Administrator at Lund University: studiefinan@er.lu.se

Students from Mexico admitted to Master’s programmes at Lund University may also be eligible to apply for financial aid and scholarships from Fundación Mexicana para la Educación, la Tecnología y la Ciencia (FUNED). For more information, please visit http://funedm.org

Colfuturo Loans and Scholarships
Students from Colombia may be eligible to apply for loan schemes and scholarships for Master’s studies at Lund University. For information about eligibility and the application process, please see www.colfuturo.org

Erasmus+ Master Loans
Erasmus+ Master Loans allow students to apply for financial support for their Master’s studies abroad. Loans will be offered by participating banks and student loan agencies on favourable conditions to mobile students: up to SEK 12,000 for a one-year Master’s programme or up to SEK 18,000 for a two-year Master’s programme. Your destination country must be different from your country of residence and from the country where you obtained your Bachelor’s degree. The scheme is currently available for students from Spain, Italy, Croatia, Romania and Turkey. For more information, please visit https://ec.europa.eu/programmes/erasmus-plus-opportunities/individuals/students/erasmus-plus-master-degree-loans_en

Scholarships for International Students
Academically talented and highly motivated international students who have applied to a degree programme at Lund University have the opportunity to be awarded a prestigious merit-based scholarship from Lund University, the Swedish Institute or selected international organisations.

Lund University Global Scholarship
Lund University offers a unique global scholarship programme that covers all or a part of the tuition fee for a study programme or course. The scholarship programme is entirely merit-based and targets top academic students from countries outside of the EU/EEA. You can find more information at www.lunduniversity.lu.se/global-scholarship

Programme-Specific Scholarships
A few programmes offer programme-specific scholarships. Details regarding any special scholarships are indicated on the programmes’ webpages at www.lunduniversity.lu.se/programmes

Swedish Institute Scholarships
The Swedish Institute offers several different scholarship programmes available to international students from a large number of countries from outside the EU/EEA. Please see the Swedish Institute website www.studyinsweden.se for full details.

Erasmus+ Scholarships
Erasmus+ is the EU’s programme for collaboration in higher education. Erasmus+ can provide scholarships for students who receive admission to a joint degree programme where Lund University is one of the partner universities. Visit our website for any updates on these programmes, called Erasmus Mundus Joint Master’s Degrees (EMJMD).

LPDP
Students from Indonesia applying to Master’s studies at Lund University may be eligible to apply for full scholarships from LPDP. For information about eligibility and the application process, please see https://www.lpdp.kemenkeu.go.id

Conicyt Scholarships
Students from Chile may be eligible to apply for scholarships from CONICYT to study a Master’s programme at Lund University. CONICYT offers scholarships in a range of subject areas, including science, engineering, architecture and business. Read more at www.conicyt.cl

There are several other organisations and foundations around the world offering scholarships to study abroad. Examples can be found at www.lunduniversity.lu.se/scholarships

If you want to learn more about scholarships and funding, please visit www.lunduniversity.lu.se/scholarships
Coming to Sweden

RESIDENCE PERMITS TO STUDY IN SWEDEN
Citizens of countries outside the EU/EEA need to have a residence permit to study in Sweden. The permit must be valid when you travel to Sweden. You apply online through the Swedish Migration Agency website after you have received your admission offer and paid your first tuition fee installment (if applicable). Students from EU/EEA or the Nordic countries do not need a residence permit to study in Sweden. It is possible to extend your residence permit to stay on in Sweden for an additional year after graduation to look for work or start a business.

For more information, please see the Swedish Migration Agency website: www.migrationsverket.se

LEARNING SWEDISH
ALL STUDENTS – FREE ONLINE COURSE AT LEARNINGSWEDISH.SE
This free online course for beginners teaches you basic speaking and writing skills and gives you insight into Swedish culture and society. Learn more at www.learningswedish.se

FREE INTRODUCTORY SWEDISH FOR STUDENTS ON A ONE YEAR DEGREE PROGRAMME
Students on a one-year degree programme are eligible for an introductory Swedish course that runs for 2–3 weeks.

SWEDISH FOR IMMIGRANTS (SFI) FOR STUDENTS ON A TWO OR THREE YEAR DEGREE PROGRAMME
If you will be studying for more than one year and apply for a Swedish personal identity number at the Tax Office, you can access the ‘Swedish for Immigrants’ (SFI) courses offered by a ‘Komvux’ school in your city of residence. These courses cover beginner to intermediate levels. The courses are free of charge.

OTHER OPTIONS TO LEARN SWEDISH
To learn Swedish in a more informal way, there are several language cafés to choose from. External, paid courses are also available. Lund University also offers a full-time Swedish Language Programme (see page 20) and Swedish courses for exchange students.

Read more about learning Swedish at www.lunduniversity.lu.se/learning-swedish

SUMMER PREPARATORY PROGRAMME
ONCAMPUS Lund offers a 3-week Summer Preparatory Programme for students who are admitted to a degree programme at Lund University (in any subject area). The preparatory programme gives you the opportunity to practise your academic English and also helps you to develop skills to succeed in the Swedish higher education system, familiarise yourself with the academic culture and to feel more comfortable when you start your studies. The programme starts in mid-August, before the start of the academic semester at Lund University.

Learn more at www.lunduniversity.lu.se/summer-preparatory-programme or email admissions@oncampus.global

OTHER PREPARATIONS
There are other preparations you need to make before coming to Sweden, such as applying for housing, paying your tuition fee (if applicable), checking insurance cover and joining a mentor group to get your social life started. Visit our website for more information about these important preparations: www.lunduniversity.lu.se/before-you-arrive

After graduation

ALUMNI NETWORK
Lund University has alumni all over the world. The Alumni Network is a great resource for broadening your networks and making new contacts while also keeping in touch with the University. As a member, you will receive exclusive event invitations and news about university happenings.

Get inspired by our alumni and read more about our activities – alumni.blogg.lu.se

CAREER OPPORTUNITIES
A degree from Lund University is internationally recognised and opens doors to a range of career opportunities.

Lund University’s proximity to, and close research collaboration with, industry and business enables students to network effectively during studies and find thesis projects and internship opportunities to gain practical experience for future employment.

Several student unions at Lund University organise on-campus job fairs focused on the relevant industry or business area, attracting top companies across Europe who wish to recruit Lund University graduates. Some of the faculties at the University also offer dedicated career services including seminars and tips on writing a CV, optimising your LinkedIn and how to find a job in Sweden. The University also offers a career portal where available jobs and internships all around the world are announced.

If you are looking to stay in Sweden, we highly encourage you to start networking early on, visit start-ups and established businesses, learn some Swedish and participate in activities and events offered by local companies and innovative entrepreneurship organisations.

Lund University is ranked among the world’s top 150 universities in graduate employability (QS Graduate Employability Ranking 2020)

PHD STUDIES
After you have graduated from your Master’s with us, you are well prepared for PhD studies at Lund University or other top universities around the world and for a successful career as an independent researcher. All nine faculties offer doctoral education and the studies are organised at the department level. You apply directly to the department when a doctoral position is advertised. There are no tuition fees for doctoral studies at Lund University.

40% of the University’s 2 720 doctoral students are international
