“This programme is much different than my other academic experiences. In addition to lectures, papers, quizzes and one regular exam, there were workshops, team projects, a large group project, and even a business simulation. As a result, there was a wide variety of hands-on learning opportunities. The main features that are unique to this programme are the large amount of challenging team-based assignments – so that you really have to learn how to work as a team – and the opportunities to reflect on and learn from your experiences.”

MSc Management is designed for recent graduates, and thus a recent Bachelor's degree is recommended. If your degree contains modules similar to more than one quarter of the MSc Management programme, you will not be eligible for a place.

While it is an advantage to have some working experience, it is not a formal requirement.

We look for undergraduates with excellent results from an internationally recognised university. When assessing your academic record, we take into account your grade average, your position in class, your statement of purpose and the standing of the institution where you studied your qualification.

Undergraduates are recommended to have a minimum average grade equivalent to 3.0 out of 4, in cumulated grade point average (CGPA), C in the ECTS grading scale, and B in the American grading scale.

Strong English language communication skills are crucial to gain the full benefit of the programmes we offer. Meeting the minimum English language test requirements does not guarantee admission. A majority of students accepted to this programme submit test scores corresponding to IELTS band 7.0.
