LUND UNIVERSITY, SWEDEN

- Master of Laws in European Business Law
- 2 years, full-time, 120 ECTS credits,
or 1 year, full-time, 60 ECTS credits
- Faculty of Law
- Lund Campus
- Application deadline: January 2021
- Programme start: August 2021

Programme overview

The oldest programme covering European economic law in Scandinavia at the best ranked law faculty in the Nordics provides an in-depth understanding of the practical and theoretical aspects of European economic law, and the operation of the rules of the European market in a global context.

The programme provides an excellent foundation in the EU constitutional framework and in the workings of the most important European rules governing how businesses operate in Europe. The programme is directed and taught by expert teachers from Lund University, supported by leading academics from other top-ranked universities, and with input from practitioners in key EU institutions, such as the EU Commission or the Court of Justice of the EU, in national authorities and in leading law firms. Students are able to pursue a one-year or a two-year programme. If the students choose to continue for the second year, they have extensive possibilities to tailor their studies in order to suit their interests and future career ambitions.

Programme modules/courses

Semester 1: EU Constitutional Law (12 credits); Business Negotiations (3); Internal Market Law (12); Argumentation and Methodology (3).

Semester 2: EU Competition Law (15 credits). Students who do the one-year Master's will in addition do a Master's Thesis (15 credits); students taking a two-year Master's will take

an elective course (15 credits).

Semester 3: Elective courses (30 credits)

Semester 4: Master's Thesis (30 credits)

ELECTIVE COURSES FOR THE TWO YEAR PROGRAMME

Students have a very wide range of courses to choose from, in areas such as competition law, the law of the internal market, mergers and acquisitions law, copyright law, patent law, block chain and fin-tech law, corporate social responsibility and big data law. Students also have the opportunity to be selected to represent Lund in the European Law Moot Court Competition or to experience a placement in a law firm or public authority.

Career prospects

With a unique combination of traditional legal studies in EU business law (e.g. the law of the internal market, competition law and constitutional law of the EU) and economic- and trade-related issues, this programme is an ideal preparation for a career within private practice, national/EU institutions, or legal research. It also provides an excellent basis for students interested in pursuing an academic career.

"It was a very nice programme and it was definitely one of the best experiences I have ever had as a student. The teachers, the classmates and the courses all made my Master's unforgettable. The courses were absolutely amazing and contributed drastically to my knowledge and professional skills. One of the best experiences for me was the European Law Moot Court Competition course. We went to the final in Luxembourg and I happened to plead in the Court of Justice in front of the actual judges and advocate generals, which was incredible."

About Lund University

Lund University was founded in 1666 and is repeatedly ranked among the world's top 100 universities. The University has 40 000 students and more than 8 000 staff based in Lund, Helsingborg and Malmö. We are united in our efforts to understand, explain and improve our world and the human condition.

Lund is the most popular study location in Sweden. The University offers one of the broadest ranges of degree programmes and courses in Scandinavia, based on cross-disciplinary and cutting-edge research. Because of its wide disciplinary range, interdisciplinary collaborations and engagement with wider society, Lund University is particularly well equipped to meet complex societal challenges. With partner universities in around 70 countries, the University's profile is distinctly international.

Lund University has an annual turnover of more than EUR 830 million, of which two-thirds go to research in our nine faculties, enabling us to offer one of the strongest and broadest ranges of research in Scandinavia.

The establishment of the world-leading facilities MAX IV and ESS will have a major impact on future scientific and industrial development in both materials science and life science. MAX IV is the leading synchrotron radiation facility in the world, while the European research facility ESS will be the world's most powerful neutron source when it opens for research in 2023. Adjacent to these facilities, Science Village Scandinavia is also being developed into a meeting place and testing environment for research, education and entrepreneurship.
