

Personal Master's in Biomedicine Template

Personal data

First Name	Last Name
Application ID	Phone number
Email	

Checklist

I have read and followed the instructions, also the specific ones for my country, specified at www.universityadmissions.se and my application is complete.

I have filled out this document, checked that the text fits inside the boxes, the document is saved as Lund_year_applicationnumber.pdf (e.g. Lund_2020_005778.pdf) and uploaded through www.universityadmissions.se.

I have not completed my Bachelor degree at this time-point but am expected to before the program start in August and I have therefore submitted a certified list of the courses that I will take before I get my degree.

I have uploaded my Bachelor thesis work or equivalent (a written scientific report).

Education

Bachelor/undergraduate

Name of University	Country
Degree and field of study	

Master/Graduate (if applicable)

Name of University	Country
Degree and field of study	

Doctoral education (if applicable)

Name of University	Country
Degree and field of study	

Independent project / Degree thesis

I have performed an **independent project**; a degree thesis or other biomedical projects that include a written report. Please fill out the title, abstract and length of the project below.

It is part of my Bachelor's degree but I have not performed it yet. Please describe your project (if its ongoing or planned) or the project course as careful as possible.

I have not and will not perform any independent project that includes a written report.

Title of the report/thesis
Abstract (or a short description of the project) The text must fit into the box below (3200 char).
Length of the project (weeks in full time equivalents)

Relevant work experience

Please describe any work experience you have that is relevant for the Master's Programme in Biomedicine. State the name of the company or institution, the time period you were employed and in one sentence your tasks. You must certify your experience with documentation. The text must fit into the box below (3000 char).

References

Provide two references from your previous university or work place that the programme can contact. We need name, email, phone number and in what context you know him/her.

Biomedical research plan

An antibiotic medicine has stopped working for some patients. Now you want to find out why. Write a short project plan how you approach this problem. It should contain examples of scientific questions you ask on the way to the goal, and after each question a brief description of the methods you apply. The method descriptions should indicate how the method works (what it does), what type of results it gives, and how the results would contribute to answering the question. The text must fit into the box below (5500 char).

Motivation letter

Please describe briefly your main research interest and motivate why you want to study the Master programme in Biomedicine at Lund University. The text must fit into the box below (3200 char).
