LUND UNIVERSITY | SWEDEN

- Master of Science in Environmental Studies and Sustainability Science
- 2 years, full-time, 120 ECTS credits
- Lund University Centre for Sustainability Studies (LUCSUS), Faculty of Social Sciences
- Lund Campus
- Application deadline: January 2022
- Programme start: August 2022

## PROGRAMME OVERVIEW

As our world is facing serious societal and environmental challenges the need for graduates with the skills and tools necessary for solving complex sustainability challenges is increasing. Do you want to be part of solving key sustainability challenges and become an agent for change?

Lund University Centre for Sustainability Studies (LUCSUS) is a world class sustainability centre for research, teaching and impact where we work to understand, explain, and catalyse social change and transformations in relation to material limits in the biosphere.

The master's programme in Environmental Studies and Sustainability Science (LUMES) provides students with skills and tools for solving complex sustainability challenges related to climate change, depletion of natural resources, global health, inequality, governance and societal transformations from a local to global level. Building on our students previous knowledge and experiences, emphasis is placed on understanding present societal development patterns and the environmental problems they create, as well as approaches for formulating strategies for future sustainable pathways. The programme takes an interdisciplinary and holistic approach to sustainability, which provide students with a broad knowledge of the interaction between cultural, economic, environmental, political, and social dimensions of sustainability.

## Unique programme qualities:

The LUMES programme is set in an interdisciplinary and internationally excellent educational and research environment. Students are exposed to different perspectives, world views and experiences, offering a unique opportunity for students to broaden their perspectives and learn about sustainability challenges in other parts of the world.

Courses are taught by teachers and researchers from both the social and natural sciences with the aims of creating graduates that are able to grasp, analyse and formulate governance strategies and practices of transformation. In addition, interpersonal and academic skills are developed through strong emphases on group work, presentations, academic writing and direct interactions with society.

Since the programme started in 1997, LUMES has had close to 1000 students from roughly 100 countries.

## PROGRAMME MODULES/COURSES

**Semester 1:** Earth Systems Science (7.5 credits), Social Sciences and Sustainability (7.5 credits), Methodological Foundations of Sustainability Science (7.5 credits), Sustainability Science (7.5 credits) **Semester 2:** Politics of Sustainability (7.5 credits) Geographies of Sustainability (7.5 credits) Economy and Sustainability (7.5 credits) Methods & Tools, From Knowledge to Action (7.5 credits). **Semester 3:** Elective courses, 7.5 credits each adding up to a total of 30 credits. **Semester 4:** Master's degree project (30). ## CAREER PROSPECTS

The need for graduates that are able to address complex social, environmental and economic challenges from a holistic perspective is increasing. A MSc in Environmental Studies and Sustainability Science opens employment opportunities for a

“I came to LUMES wanting to expand my capacities as a global citizen to impact positive change for Ghana. Now, at the end of the programme, I believe I can do just that. LUMES teaches you to see and understand with different eyes, a quality needed more than ever in today's world where difference seems to be emphasised above all else.”

Abdallah Smith from Ghana

wide array of career paths in various private sectors, governmental, non-governmental and academic settings.

Our former students are working for national and international companies, non-governmental organisations, bilateral and intergovernmental organisations, state authorities and national and local governments. Examples of employees are IKEA, H&M, WWF, Plan International, WHO and the European Union. Many graduates have also continued with doctoral studies and are now working at universities around the world.

## ENTRY REQUIREMENTS AND HOW TO APPLY

### Entry requirements

An undergraduate degree (BA/BSc), including at least 180 ECTS, in any subject. English level 6.

### How to apply

- 1. Apply online:** Go to [www.lunduniversity.lu.se/environmental-studies](http://www.lunduniversity.lu.se/environmental-studies). Click on "Apply" and follow the instructions for the online application at [www.universityadmissions.se](http://www.universityadmissions.se), the Swedish national application website. Rank the chosen programmes in order of preference.
- 2. Submit your supporting documents:**
  - **General supporting documents :** Check what documents you need to submit (i.e. official transcripts, degree diploma/proof of expected graduation, translations, proof of English, passport) and how you need to submit them at [www.universityadmissions.se](http://www.universityadmissions.se).
  - **Programme-specific supporting documents:** When applying for this programme, you must also submit a statement of purpose, a CV and two letters of recommendation with your application. Instructions can be found at <https://www.lumes.lu.se/admission>.

### 3. Pay the application fee (when applicable).

#### Selection criteria/additional info

The selection is based on previous academic performance, relevant work experience, the statement of purpose and letters of recommendation.

#### Tuition fees

Tuition fee SEK 125 000 per year for non-EU/EEA citizens. No fee for EU/EEA citizens See [www.lunduniversity.lu.se](http://www.lunduniversity.lu.se) for details on tuition fees.

## ABOUT LUCSUS

Lund Lund University Centre for Sustainability Science (LUCSUS) is a place for education, research and collaboration on questions related to sustainable development. We combine critical perspectives with solutions-based approaches. At the core of our work is the belief that sustainability is a complex field, best understood and explained through interdisciplinary research in close collaboration with society. Our research focuses on sustainability challenges and is often conducted in international cooperation.

In addition to our international Master's Programme in Environmental Studies and Sustainability Science (LUMES), we also offer a PhD programme in sustainability science.

LUCSUS runs an extensive outreach and impact activities programme to advance the societal dialogue on sustainability. Through this programme, we communicate our research to society, in close collaboration with stakeholders, governments and non-governmental organisations. Learn more about the Centre at [www.lumes.lu.se](http://www.lumes.lu.se).
