MSc in Economics

LUND UNIVERSITY | SWEDEN

- Master of Science in Economics
- 2 years, full-time, 120 ECTS credits
- School of Economics and Management
- Lund Campus
- Application deadline: January 2023
- Programme start: August 2023

PROGRAMME OVERVIEW

The MSc in Economics brings you the quantitative skills and analytical mindset that are essential for a successful career in governmental organisations, international institutions, and private sector firms such as banks and economic consultancies.

The programme provides you with deep and thorough knowledge of modern economic theories, concepts, techniques, and their applications. You will acquire the necessary skills to undertake advanced economic analysis and become familiar with state-of-the-art research.

The rigorous and research-based education will enable you to undertake advanced economic analysis by applying modern economic theory and state-of-the-art tools for handling data and conducting econometric analysis (using, for example, STATA and MATLAB).

The programme offers a wide range of elective courses (60 credits in total) allowing you to specialise in your field of interest. You also have the opportunity to study one semester abroad at one of our international partner universities.

We offer a high-quality learning experience. The lecturers are dedicated to teaching but also active in research, ensuring you access to the latest developments in their fields.

Taken together, the programme equips you with a comprehensive package of knowledge, skills, and tools crucial for understanding and analysing the key economic issues of today and tomorrow.

PROGRAMME MODULES/COURSES

A unique feature of the Master's programme in Economics is the ability to tailor your degree to your interest. You can choose from different specialisations: Econometrics, Financial Economics, International and Development Economics, Macroeconomics, Microeconomics and Public Economics with Health and Labour Economics. This design allows for a large

degree of flexibility. Whilst free choice within the specialisation courses will be allowed as long as the specific prerequisites for the course are satisfied, it is expected that most students will follow these recommended profiles.

CORE COURSES (30 credits in total): These are core courses for all students within the programme and you study them during your first semester: Advanced Econometrics; Advanced Macroeconomic Analysis; Advanced Microeconomic Analysis; Mathematical Methods.

SPECIALISATION COURSES (including elective courses): 60 credits in total. There is also a possibility to go on an exchange during the second year.

MASTER'S DEGREE PROJECT/THESIS: 30 credits in total.

CAREER PROSPECTS

There is a broad and extensive labour market for economists both nationally and internationally. The demand for the competence of economists with a master's degree is relatively constant over time or even growing. You will be qualified for advanced positions within the private and public sectors.

Graduates find employment in government authorities and public institutions, in large companies, in the financial sector, in private research centres, in the health sector and in a large number of international institutions such as central banks, government departments, OECD, EU, The World Bank, development agencies, economic consultancies, financial organisations, international corporations etc. The programme also provides excellent preparation for PhD studies.
