

## CV Form - Master's Programme in Biomedicine at Lund University

### Personal data

First Name	Last Name
Application ID	Phone number
Email	

### Statement of intent

Please describe why you want to study the Master's Programme in Biomedicine at Lund University, specifically. From your perspective, describe what you expect that you can contribute with to the Programme and Lund University. The text must fit into the box below (maximum 2000 characters). Please note that this is the only letter of motivation that will be considered.

## Education

### **Bachelor/undergraduate**

Name of University	Country
Degree and field of study	
Year admitted	Year completed (if not completed, estimated year of completion)

### **Master/Graduate (if applicable)**

Name of University	Country
Degree and field of study	
Year admitted	Year completed (if not completed, estimated year of completion)

### **Doctoral education (if applicable)**

Name of University	Country
Degree and field of study (state if MD and/or PhD)	
Year admitted	Year completed (if not completed, estimated year of completion)

### Independent project/Degree thesis

I have performed an **independent project**; a degree thesis or other biomedical project that includes a written report.

Please fill out the title, length (credits) and abstract (if not available, a brief description) of the project below. Submit the full project report as described in the section “Appendix”.

I am currently/will conduct an independent project, but **I have not completed/performed it yet**.

Please fill out the length (credits) of the project and provide a tentative title and brief description of the project below. Upon completion of the project, submit the full project report as described in the section “Appendix”.

Title of the project/thesis
Length of the project (credits)
Abstract (or a brief description of the project) The text must fit into the box below (maximum 3200 characters)

## Relevant research-, work- and/or extracurricular activities

Please describe any research-, work- and/or extracurricular activities you have performed that you consider relevant for the Master's Programme in Biomedicine. Note, only include activities that were not part of the regular education program you were enrolled at. Things to list are for instance summer-, or project courses outside the regular curriculum, and work experiences. Extracurricular activities can for example include experience as a board member, voluntary assignments, project management etc.

State the name of the activity, where it was conducted (name of institution, organization or company etc), the time period and in one single sentence your tasks. You must certify your activities with documentation, for instance a course certificate, a certificate of completed activity or certificate of employment. Submit the certificate(s) as described in the section "Appendix". The text must fit into the box below (maximum 3000 characters).

## Appendix

List all the documents that are requested/referred to within the CV-form. If possible, **merge all appendixes in one single pdf-file**, and name it accordingly: BIMM2025\_Last name\_First name

Submit the appendix file(s) via the university admission site.

## Assessment of Applications

Each applicant is assessed independently of other applicants.

Points are awarded only for merits that are described in English in the appropriate sections of this CV-form and that have been certified according to the instructions.

Points are awarded accordingly:

Academic merits: 0-300

Research/work merits: 0-90

Statement of intent: 0-90
