

- Master of Science in Environmental Management and Policy
- 2 years, full-time, 120 ECTS credits
- The International Institute for Industrial Environmental Economics (IIIEE)
- Lund campus
- Application deadline: January 2019
- Programme start: September 2019

## Programme overview

If you are interested in questions such as “how can environmental problems be assessed”, “how do companies and public authorities work to prevent and solve environmental problems” and “how can different types of actors influence and control in order to drive positive change”, then this Master’s programme will appeal to you. The International Master’s Programme in Environmental Management and Policy (EMP) is designed to enable graduates to drive change by developing their ability to evaluate, design and implement management and policy responses to complex environmental challenges. Key features of the EMP programme include its interdisciplinary, international and applied nature.

The dual focus on environmental policy and environmental management is another central feature of the programme. This is based on our conviction that decision makers within both environmental policy and environmental management benefit vastly from having this mutual understanding. Increasingly, we find that many alumni, regardless of their employer, work in the intersection of public policy and corporate management to move the environmental agenda further.

## Special features of the programme

From a fundamentally practical standpoint, in that change starts in the reality of today, our students are challenged to develop professional skills, knowledge and networks in close collaboration with the surrounding society.

Special features include a multidisciplinary and multicultural classroom, both with respect to the faculty teaching and the students admitted to the programme. This is combined with a class size and an approach to student learning that allow for

a high level of in-class interaction. Designed to build on the knowledge that students have acquired during the first cycle education, the EMP programme also explicitly includes learning activities that encourage the peer to peer sharing of experience and perspectives, thus allowing students to capitalise on their diverse collective experience.

The programme also offers multiple opportunities to collaborate with and/or learn from a range of practitioners from both business and government, study visits and projects with outside clients.

## Programme structure

Courses within the programme can be divided into five blocks:

- Courses providing knowledge and skills that are fundamental for all sustainability professionals
- Courses related to Corporate Environmental Management
- Courses related to Environmental policy at the Urban, National and International level
- Elective courses that allow students to choose between going deeper into environmental policy or environmental management
- Capstone courses that allow for both further specialisation and for the integration and application of all prior learning in the programme

Courses are: **Semester 1:** Environmental Science and the Anthropocene, Conceptualisations of Sustainability, Fundamentals of Technical Systems, Fundamentals of Economics and Economic Evaluation of Environmental Change, Introduction to Business Management and Corporate Responsibility, Introduction to Policy and Law. **Semester 2:** Analytical Methods for Systemic Assessment of Products and Services. Lifecycle Assessment (LCA), Environmental Law and Policy in Practice, elective course: Environmental Management and Strategy in Practice – Business Consulting, elective course: Environmental Management and Policy in Practice – Internship. **Semester 3:** Environmental Policy Analysis, Sustainability Solutions in Context – Project Course, elective courses in Applied Research, Research Design & Methodology for Interdisciplinary Applied Research. **Semester 4:** Thesis project. Please see: [www.iiiee.lu.se](http://www.iiiee.lu.se) for further details.

“The IIIEE is a world-class institute attracting the best talent both on the faculty and student side. The EMP Master’s programme will be one of the most challenging and most rewarding educational experiences of your life.”

Mark Thiongó from Kenya

## Career prospects

The IIIEE MSc programme opens the door to a wide range of international environment-focused careers. Our 900+ alumni have taken positions in industry, consultancy, government, EU bodies, NGOs and international organisations such as the UN, the World Bank and the OECD. Several graduates have also enrolled in PhD programmes and some continue further into academic careers. Essentially our alumni integrate into all relevant spheres for advancement of the environmental agenda. Search for IIIEE at [www.linkedin.com](http://www.linkedin.com) to see what positions our graduates hold at present and how they have moved forward in their careers.

## Entry requirements and how to apply

### ENTRY REQUIREMENTS

An undergraduate degree, see [www.iiiee.lu.se](http://www.iiiee.lu.se) for more information. English Level 6 (equivalent to IELTS 6.5, TOEFL 90). See [www.lunduniversity.lu.se](http://www.lunduniversity.lu.se) for details on English levels.

### HOW TO APPLY

- 1. Apply online:** Go to [www.lunduniversity.lu.se/emp](http://www.lunduniversity.lu.se/emp). Click on "Apply" and follow the instructions for the online application at [www.universityadmissions.se](http://www.universityadmissions.se), the Swedish national application website. Rank the chosen programmes in order of preference.
- 2. Submit your supporting documents:**
  - **General supporting documents:** Check what documents you need to submit (i.e. official transcripts, degree diploma/proof of expected graduation, translations, proof of English, passport) and *how* you need to submit them at [www.universityadmissions.se](http://www.universityadmissions.se).
  - **Programme-specific supporting documents:** When applying for this programme, you must also submit: an applicant summary, including a statement of purpose and a CV, and two letters of recommendation. Instructions for these documents can be found at [www.iiiee.lu.se](http://www.iiiee.lu.se).
- 3. Pay the application fee** (when applicable).

### SELECTION CRITERIA

The final selection is based on previous academic performance and relevant experience, in addition to the statement of purpose and recommendation letters.

### TUITION FEES

There are no tuition fees for EU/EEA citizens. For non-EU/EEA citizens, the tuition fee for this programme is SEK 150 000 per year. See [www.lunduniversity.lu.se](http://www.lunduniversity.lu.se) for details on tuition fees.

## About the IIIEE

In 1994 the Swedish Parliament established the International Institute for Industrial Environmental Economics at Lund University. It is a unique and creative response to the global challenge for sustainable development. It grew out of concern that, within industry and government, where the power to affect environment conditions – negatively or positively – is greatest, decisions affecting the environment were still being made as a response to problems after they had arisen. Environmental problems need to be tackled at source and environmental perspectives integrated in decision-making at all levels. IIIEE is part of Lund University and governed by a board appointed by the University and the Government. We educate through MSc and PhD programmes.

## About Lund University

Lund University was founded in 1666 and is repeatedly ranked among the world's top 100 universities. The University has 40,000 students and 7,400 staff based in Lund, Helsingborg and Malmö. We are united in our efforts to understand, explain and improve our world and the human condition.

Lund is the most popular study location in Sweden. The University offers one of the broadest ranges of programmes and courses in Scandinavia, based on cross-disciplinary and cutting-edge research. The University has a distinct international profile, with partner universities in over 70 countries.
