Programme overview
The Master’s Programme in Medical Science gives students with a background in reproductive, perinatal and sexual health (midwifery), nursing, occupational therapy, physiotherapy, or speech therapy the possibility to achieve a Master of Medical Science degree.

The programme starts with the compulsory course Scientific Research Design. The programme is interprofessional and aims at developing and preparing you for advanced work and leadership within health care practice and research, as well as for quality development within public and private practice.

The programme is organised as a framework, with a few compulsory courses and a number of electives. All courses include both classroom and online elements. The amount of classroom-based sessions varies from course to course ranging from a couple of sessions to weekly meetings. During your studies, you will acquire the knowledge and skills required to work in a global health care and research context, through student-centred teaching and learning activities in a research-intensive academic environment. All teachers are also active researchers.

Programme modules/courses
All students develop an individual study plan within their major study field. The programme offers a range of courses including Evidence-Based Practice, Communication, Leadership and Professional Development, Qualitative Research Methodology and Biostatistics, as well as specialised courses.

The Master’s thesis is organised into four parts that can be taken during several semesters. You have the opportunity to do your thesis within a research group.

Career prospects
You will be qualified to work independently and in leading functions within research and development, both in a university context and in the public sector. A completed Master’s programme can, if approved by a relevant authenticating body, be included as part of a PhD programme.

Entry requirements and how to apply
ENTRY REQUIREMENTS
A Bachelor’s degree of 180 credits or equivalent within the fields of audiology, nursing, occupational therapy, physiotherapy, radiology, or speech and language pathology, including a degree project of 15 credits in the main field. English Level 6 (equivalent to IELTS 6.5, TOEFL 90).
See www.lunduniversity.lu.se for details on English proficiency levels.

HOW TO APPLY
1. Apply online: Go to www.lunduniversity.lu.se/medicine. Click on “Apply” and follow the instructions for the online application at the Swedish national application website www.universityadmissions.se. Rank the chosen programmes in order of preference.

“...The courses we had in the first semester were very interesting. We could also interact with students from other disciplines. It was a really exciting mix and I got a very wide perspective.

The studies here push you to think, to create and I think this is of much value to your professional development.”

Metuge Ankhesnamon Ya-Nyonge from Cameroon
2. Submit your supporting documents:
   • **General supporting documents:** Check what documents you need to submit (i.e. official transcripts, degree diploma/proof of expected graduation, translations, proof of English, passport) and how you need to submit them at [www.universityadmissions.se](http://www.universityadmissions.se).
   • **Programme-specific supporting documents:** When applying for the MSc in Medical Sciences, you must also fill in and submit your Medical Science Profile Portfolio and your degree project with your application. Instructions on how to fill in the Medical Science Portfolio and further information are available on the programme webpage.

3. Pay the application fee (when applicable).

### SELECTION CRITERIA/ADDITIONAL INFO

The selection is based on academic qualifications and on the Medical Science Profile Portfolio.

### TUITION FEES

There are no tuition fees for EU/EEA citizens. For non-EU/EEA citizens, the tuition fee for this programme is SEK 140 000 per year. See [www.lunduniversity.lu.se](http://www.lunduniversity.lu.se) for details on tuition fees.

### About the Faculty of Medicine

The Faculty of Medicine is one of eight faculties at Lund University and offers a wealth of research, postgraduate and educational programmes in medicine, public health, biomedicine and nursing to name a few.

The Faculty encompasses 2,800 full-time undergraduate students enrolled in 8 degree programmes, as well as 1,100 postgraduate students and 1,800 employees. Research spans across a broad area from basic experimental research to applied research, in order to answer questions related to clinical practice, the health sciences and society.

### About Lund University

Lund University was founded in 1666 and is repeatedly ranked among the world’s top 100 universities. The University has 40,000 students and 7,400 staff based in Lund, Helsingborg and Malmö. We are united in our efforts to understand, explain and improve our world and the human condition.

Lund is the most popular study location in Sweden. Lund University offers one of the broadest ranges of programmes and courses in Scandinavia, based on cross-disciplinary and cutting-edge research. The University has a distinct international profile, with partner universities in over 70 countries.

Lund University has an annual turnover of SEK 8 billion, two-thirds of which are destined for research. Our eight faculties conduct strong research in many different areas, including over thirty research fields in which we are world-leading. Many scientific breakthroughs and pioneering innovations have originated from Lund University.

The world-leading research facilities MAX IV and ESS which are being established in Lund will be of great significance for research and industrial development within materials and life sciences. MAX IV, which was inaugurated in 2016, is the world’s foremost synchrotron radiation facility and the ESS will be the most powerful neutron source in the world once it opens for research in 2023. Science Village Scandinavia is developing nearby, destined to become a meeting place and a test environment for research, education and entrepreneurship.
